India

Dear my young friend,

Thanks to you didn't forget our trip in an Indian train. I remember you and your lovely family as a good memory from India. Really, you and your letters are so lovely.

Since our last meeting, I visited already more few countries: China, Hong Kong, Thailand, Uzbekistan and Switzerland. Always, I like so much to meet during my journey new people from difference cultures. In spite of this fact, I found equal characters among Mankind - love, humanity, warm hospitality. What do you think about the Indian religions, philosophy and Sects? To which of those you belong?

In my visit in India I had the feeling that you are Great nation, but if the Indian populations will spend only 50% of the energy and effort they spend for their ritual and worship - India could be a great powerful nation in the world. I mean, in Technology, Sciences and Art. I am so happy for your strong motivation to progress your self and to get achievements for your good future.

Recently, I finished to create a new book - a novel: *A lonely pigeon on the balcony*. The book is written in the Hebrew language. It's a story about a complicated family in Jerusalem during 1940-1960. The balcony is a symbol to a bridge between the sky and the spiritual life to materialistic and desire life. It's my ninth book. What a pity you can't read those books. In spite the local descriptions the stories are universal. Next Sunday will be our Jewish new year, what we call: ROSH HA-SHANA. For us it is not the time for parties but it is the time to ask for forgiveness from people surrounded us and to open a new clean page in our life. It's the time to pray before God and to ask him to finish all our bad time and to open for us blessed good days. So, I wish you my dear friend.

According to your question: I was borne in Jerusalem on 26 May, long time ago. When you was borne? Please write to me about your life, about your family and about India. In which way you understand your life as young girl in India? Enclosed my photograph. Lively, I think, I am visible nicer.

Best wishes to you.

Sincerely,

yours,

Benzi (bentsi)
