Humanities

Textbook materials and online platforms provided.

Languages

KS3 French and Spanish Textbooks are provided for by the school
The school subscribes to the Languagenut platform.
Account details will be shared with your child.

Printing

At BSD, we endeavour to conserve resources and be mindful about printing.
Students have access to the school printers available in the library and in the senior school computer lab. In order to add the printer to your device, please follow the instructions shown in the attached two files for:

[Mac Users](#)

[Windows Users](#)

You can scan your school badge on the printer and access your print jobs, scan to your email or Google Drive, etc.

This will be available in week 2.

Please email the [BSD Technology Coordinator](#) at bsd.tech@isg.edu.sa if you have any problems.

Mathematics Requirements

Calculator Usage

- In KS3/4 mathematics, we teach both non-calculator and calculator-supported mathematics skills to all students. The calculator we recommend is the CASIO fx-991ES Plus. It is easily found on Amazon.sa, in Jarir and many other stationary stores. This is a solid and reliable calculator containing all the functionality required to support your child from Year 7 through A-level mathematics. A graphical display calculator (TI84, CASIO Prizm) is not allowed for any assessments at BSD; therefore, we do not recommend purchasing one. The free online graphing websites are often a better option for students.

Other supplies

- Students should be prepared for class every day with their exercise book, textbook, pencil, pen, ruler, and calculator.
- Additionally, students will require a geometry kit containing a protractor and a compass. Your child's teacher will inform your child ahead of time about lessons where these will be required.
- KS3 students will be issued a textbook for the duration of the year.
- The school subscribes to a mathematics learning platform and details will be shared with your child.

Year 9 fast track and KS4/KS5 mathematicians will be required to purchase their own textbook from the textbook list provided.

Thank you,

BSD Senior School
