

Content Support Virtual Sessions

Grades 7-8

- Students in quarantine should check Canvas for lesson materials. Teachers will post lesson materials, assignments, and announcements in Canvas for absent students.
- For each course area, there is at least one virtual session per week for students who need help working through their assignments or who have questions about the content.
- Teachers are available Monday-Thursdays, both during the day and after school, for scheduled 30-minute drop-in support sessions at designated times.
- The schedule and links for virtual support sessions will stay the same for the Fall semester.
- Students can select any content session that fits their schedule, no matter who is teaching it.
- Students should reach out to teachers by email if additional support is needed while in quarantine.
- Click the links below to go to the schedule for each content area. You will see the times available, which teacher is scheduled, and the link to join the virtual session.
