I.5.3. editorship/writing in academic, scientific and professional journals;

6.1.a Aims and Scope of University Research Journals

JARDET, formerly the USM R&D Journal, is a peer-reviewed and multidisciplinary journal in English that publishes reports of original research in agriculture and its allied fields including but not limited to animal science and aquaculture, agriculture-related social research, business, economics and management, education, engineering and computing, human ecology, food sciences, and veterinary and health sciences.

SNAPS is an open-access scientific journal encompassing a wide suite of areas in the natural and physical sciences, mathematics and engineering, and sustainability science. SNAPS considers full articles, rapid communications, notes, reviews, and discussion papers. To reduce carbon footprint emission, all issues of SNAPS will be published and archived electronically online.

JBEGS is a peer-reviewed and open access journal aimed to serve as a leading platform for disseminating high-quality research that advances our understanding of various aspects of business, economics, and governance. The journal seeks to foster scholarly dialogue and provide a forum for academicians, researchers, policymakers, and practitioners to exchange knowledge and insights related to these fields. The journal shall be made available electronically with limited printed versions for library exchange and accreditation purposes.

JCED is a peer-reviewed and open access journal aimed to serve as venue for the publication of research related to quality learning, skills development, and literacy, social development,

and community development. Similar to JBEGS, the journal shall be made available electronically with limited printed versions for library exchange and accreditation purposes.

USM journals accept original research papers and reviews. They welcome submission from all sectors: authors, scientists, researchers, faculty from various institutions and agencies. One to two issues constitute a volume annually.

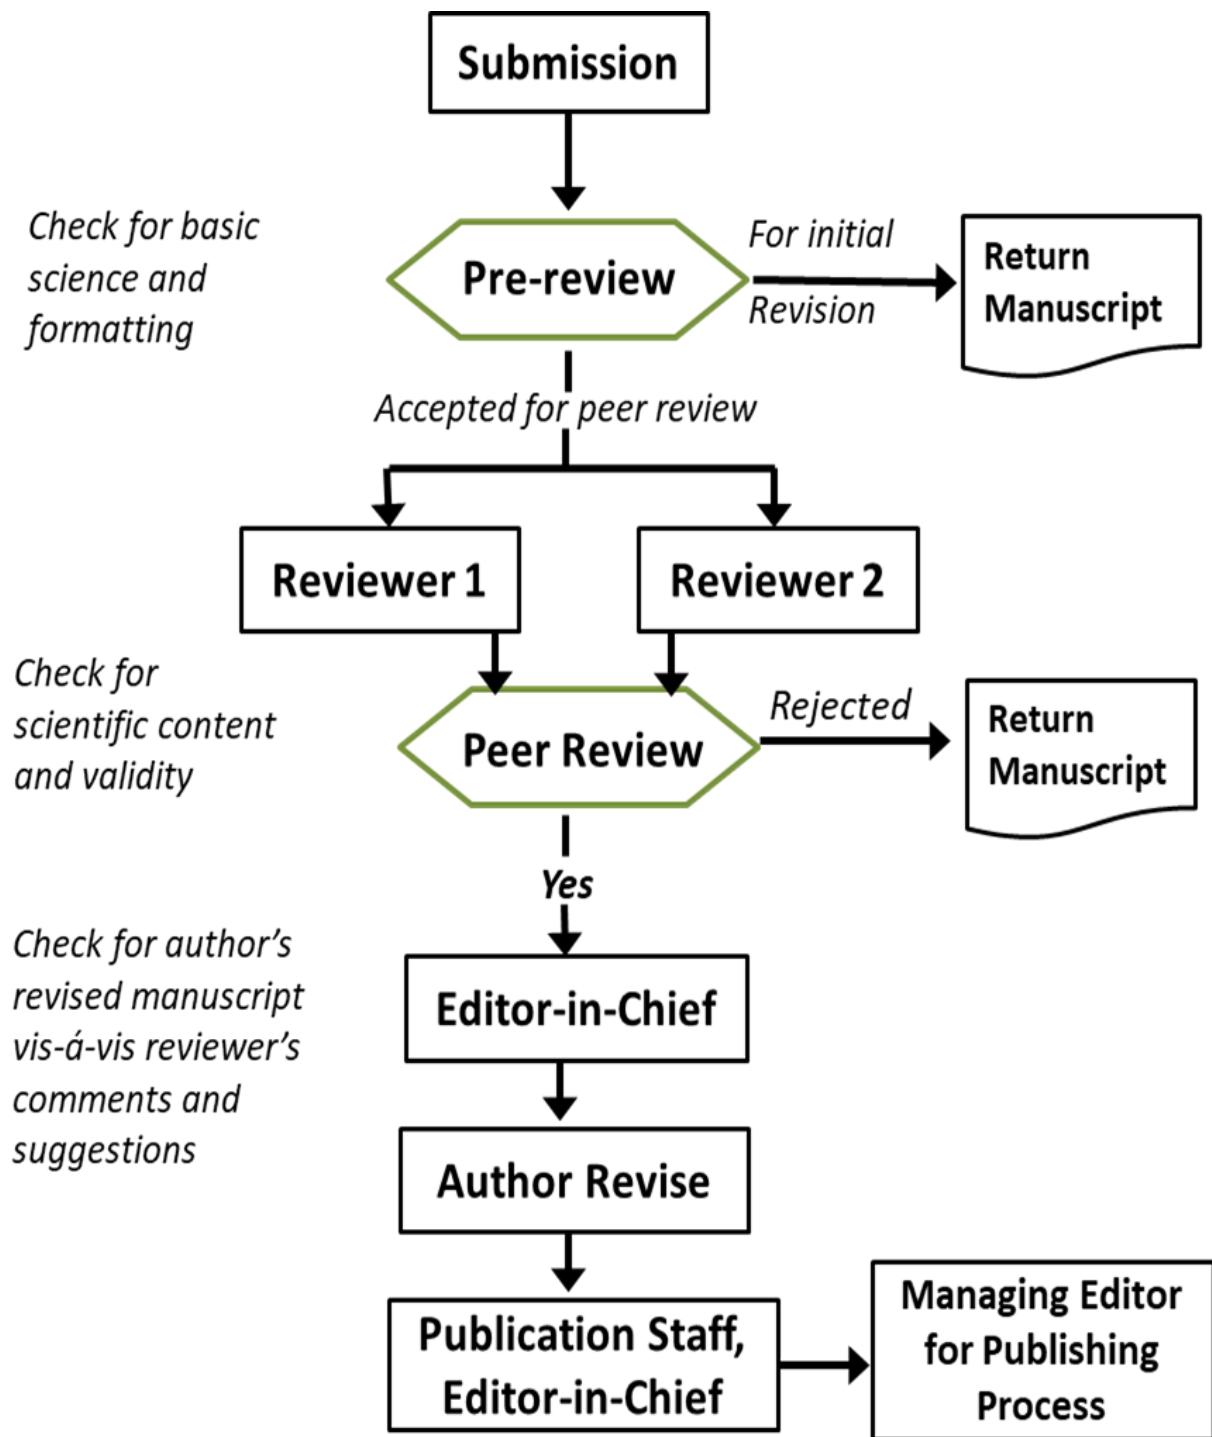

6.1.b Journal Open Access Policy

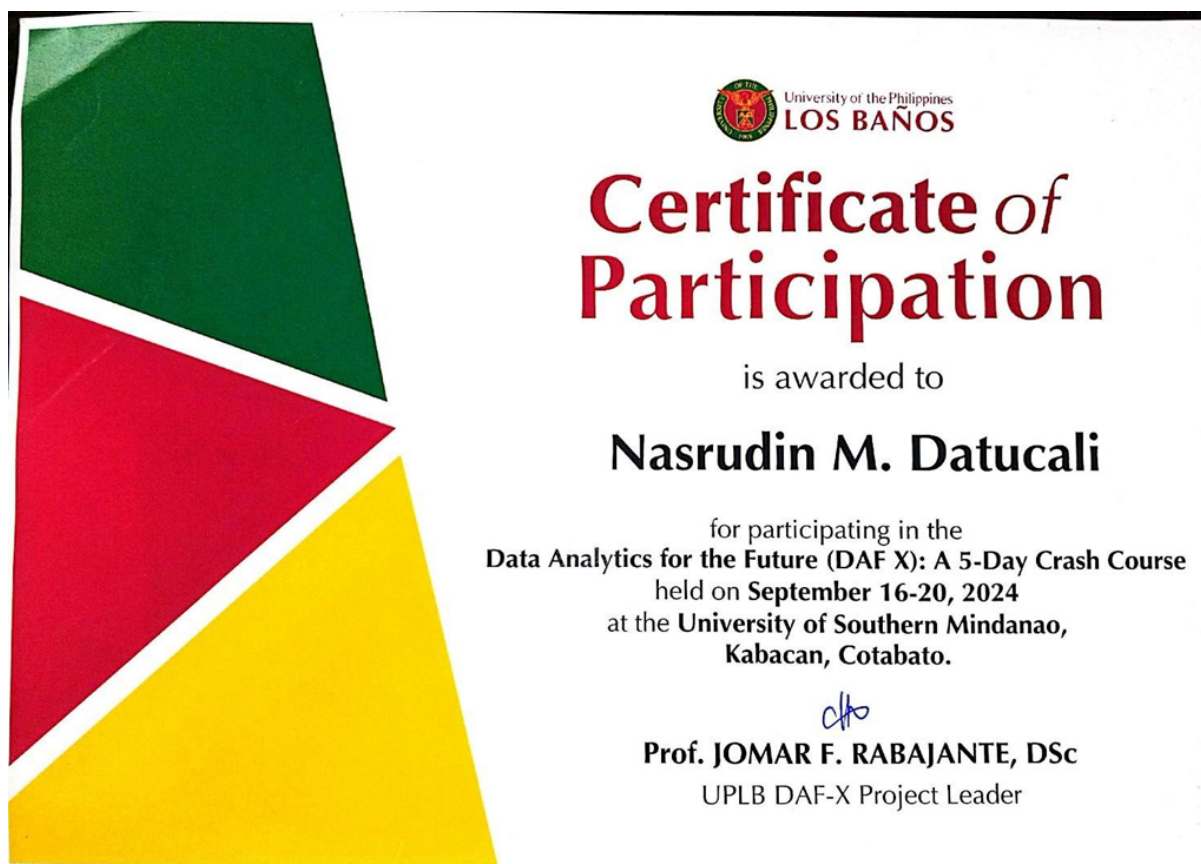

JARDET and SNAPS are open access journals - all articles are published open access and as such do not have any subscribers' fee and its contents are free online.

6.1.c Submission Preparation Checklist

As part of the submission process, authors are required to check off their submission's compliance with all of the following items, and submissions may be returned to authors that do not adhere to these guidelines.

- a) The submission has not been previously published, nor is it before another journal for consideration (or an explanation has been provided in Comments to the Editor).
- b) Disclosure of the conflict of interest.
- c) The submission file is in Microsoft Word document file format.
- d) Where available, URLs or DOI for the references have been provided.
- e) The text is double spaced; uses a 12 point Arial font; employs italics, rather than underlining (except with URL addresses); and all illustrations, tables, and figures are placed at the end.
- f) The text adheres to the stylistic and bibliographic requirements.
