---

2. PROJECT SUMMARY

(1-2 paragraphs) What is your senior project? What is the purpose of the project?

3. EXEMPLARS (EXAMPLES)

---

*The exemplars should be **similar** to what you want to make. Identify projects that inspire your own work in terms of scale, functionality, audience, etc. Explain how each exemplar inspires your work.*

4. MENTOR

Identify someone who can give you feedback outside of this class. At a minimum, this should be an

iSchool teacher. Other ideas include personal mentors or experts in your field. Who is your mentor? Explain.

5. SELF-ASSESSMENT

What is your criteria for an excellent project? In other words, how will you know if your project is successful? This criteria will be different for everyone, and should be connected to what you want to accomplish with your work.

6. FIELD TRIP

I'd like everyone to go somewhere that's related to their work in some way. Film screening, science lab, Grimm's Fairytales Museum, a chocolate factory … please share where you'd like to go if you could go anywhere, and where you know you can go in the city.

Ideally, I'd like to go …
Realistically, I can go …

7. STRUGGLES

We reflected in class about what you anticipate will be challenging for you with this project. Everyone's struggles are different. Summarize your primary concerns here, so you and I are both aware of what you'll be working to overcome.

8. PLAN

How will you spend your time in class and out of class each week? How will you work up to your final project in January? I will use these goals to give you feedback on your progress on this project.
