

Welcome to the Cloneable Ticket to Ride Tournament Sheet!

Here's a quick guide to help you get started with your tournament:

1. **Duplicate the Sheet:** Open the sheet from the Google Drive folder. Click **File** in the top left, then select **Make a copy** to save it to your own Drive.
2. **Assign Phonetic Tags:** Each player starts with a phonetic tag (e.g., Player 1 as *Alpha*, Player 2 as *Bravo*, etc.).
 - a. Advanced users can replace these tags with actual names using **Ctrl+F**. Be sure to check “All sheets” and “Search using formulas.”
 - b. Note: Not all chart labels update automatically with Ctrl+F. You may need to double-click some charts and manually edit the legend labels to reflect player names.
3. **Update Dates:** On the **Gamelog S1** sheet, replace the dates in the top-left corner with your tournament's start date.
4. **For New Seasons:** To begin a new season, duplicate the **Gamelog S1** sheet and rename it (e.g., **Gamelog S2**). The new sheet should auto-link with **P-Analysis** and **G-Analysis** and update accordingly.

That's it! The *G-Analysis* and *P-Analysis* sheets should automatically update and populate as the *Gamelog* sheet is filled out. Enjoy your Ticket to Ride Tournament!
