

Tools & Equipment Used in the Horticulture Industry

Review Assignment

In an effort to help you better prepare yourself for the upcoming quizzes, this assignment requires you to create a Kahoot, Blooket, Quizzes, Gimkit, physical flashcards, or any other review-style platform that will contain **the definition AND picture for each tool or piece of equipment** used in the horticulture industry. One card will contain an image, and the other card will contain the use, or you can put them together. When you are done, you should have 57 tools & pieces of equipment. This will be turned in for a MAJOR grade

<ol style="list-style-type: none">1. anvil hand pruner2. backhoe3. backpack sprayer4. blower5. boom sprayer6. bow saw7. compression sprayer8. core cultivator (aerator)9. curved blade pruning saw10. disk11. drop spreader12. dump truck13. edger14. field cultivator15. forklift16. front-end loader17. garden hoe18. garden rake19. grading hoe20. grass shears21. grubbing hoe22. hand-crank spreader23. harrow24. hedge shears25.
