

Marble Gatcha info 2022

What's a Marble Gatcha?

A marble gatcha is a semi-customizable adopt event. It is similar to gatcha adopts, but you get to choose some elements of the design, like its species, accessories, and traits.

You get a marble, tell me what species you want it to be, and I design a character for you of that species based on the colors and design of the marble!

Example of a marble gatcha, the RPG adventure set:

Some of the finished designs including traits/accessories:

Pick your species, pick your trait tabs, pick your accessory type!

SPECIES

These are the species available for this gatcha. I will post sketches of the bases in advance with their standard accessories which kofi supporters get to see first!

trabbowl hatchling \$46 usd

Batnix (bat sugarnix subspecies) \$76

Bakiri \$76

Delta irribask \$76

Fallen cappari \$76

Trabbowl adult \$76

Ko-fi exclusive: Bunbii \$76

TRAIT TABS

Trait tabs give a random trait from the level you picked from the species' trait list, or the universal trait list for enchanted/legend level. You can request one to omit from the tier you picked (ie if you don't like the look of a certain trait)

ACCESSORIES

This gatcha comes with the option of Hattowen themed accessories! (for fallen cappari, this includes the trait, ie. divine weapon)

none - free

standard - free (list of the standard accessories [visible in description here](#), each species/base has its own

mini customize - +\$12 customise the standard accessory's lines (ie standard witch hat -> witch hat with a ragged edge/patches/rope around centre)

extra customize +\$30 custom accessory, can be different from the standard accessory, (ie. hat->cape) PLUS one small extra ie. potion belt etc

FAQ

Q: Does buying zero trait tabs get you only common traits?

A: Correct.

Q: Are there different marble designs for the ko-fi wave and public wave?

A: Yes! There will be different marble designs for each. If there's any left over from the ko-fi they will be put into the public wave.

Q: Do \$10+ ko-fi supporters get to see the art bases early?

A: Yes they do!

Q: Can the hatchlings have traits?

A: Yes

Q: What is the maximum number of trait tabs per character?

A: Three

Q: Can I add on traits I already have in my inventory?

A: Unfortunately not for gatchas.

Q: Are people allowed to swap marbles with each other at any point in the process?

A: Yes! Make sure you both comment to confirm you've swapped marbles.

Q: Can we organise/collaborate with other users for multilevel marble swaps?

A: Yes! Just let marsh know which marble you ended up with, if it's a discord add them so they can see everyone's swap approval.

Q: If you buy more than 1 marble at once, can you swap the marbles between the species/traits you chose?

A: Yes, you get to choose which marble goes to which species/trait set.

Q: Do you get to see the marble you've rolled before you choose traits, or can you choose traits after?

A: No, you have to choose traits and pay first, but you can still swap marbles afterwards.

Q: Are the three marbles listed in the swap centre the only ones available for swapping?

A: Yes, at the beginning of the gatcha

Q: Can there only be a maximum of three marbles in the swap shop at once?

A: Yes

Q: If you swap one of your marbles for one in the swap shop, does your previous marble appear in the swap shop?

A:Yes.

Q: Are effects traits included in the trait tab pool as well?

A: Yes, in the rare and enchanted levels

Q: Do you put the description and traits you want in the original post when you originally claim a marble roll?

A: You don't have to but I recommend this as you'll get your queue number faster and have higher swap priority.

Q: In what order will the queue be processed?

A: When you post your claim comment that includes your whole order (what species / addons you want) you'll get a queue number! (just posting "claim" won't get you a queue number until your comment has your order in it)

Q:Do Capparais all come with an enchanted trait if they come with an accessory?

A: Yes, they'll get the trait that best describes their accessory.

Q:Could you swap accessory types across species?

A:Yes, but you would have to get the tier 3 accessory customisation option to do so!

Q:With the legendary trait possibility could you get one of the beetlbii, spunbii, mantidbii?

A: Yes, but it is still random.

Q:I don't understand the difference between mini-customize & extra-customize?

A:The mini one just changes aspects of the default accessory for that species. The extra customize can completely change the accessory itself!

Q:Can you buy 2 of the same trait tier (like 2 enchanted traits)?

A:Yes
