Abstract

(Center, Bold, Times New Roman 9)

Abstract is a brief summary of the paper to help readers quickly ascertain the main problem of research, the solution of solving the problem encountered, the purpose of the research and the temporary results of the research which can be in the form of numbers / percentages according to research needs. The abstract should be clear and informative, providing a statement for the problem under study as well as its solution. The length of the abstract is between 150 to 250 words. Avoid unusual abbreviations and define all symbols used in the abstract. Using keywords related to the research topic is recommended.

Keywords : Keyword1, Keyword2, Keyword3, Keyword4, Keyword5

(At least 5 words related to the content of the research separated by commas)

1. INTRODUCTION

(SUBTITLES Center, Bold, Times New Roman 12, UPPER CASE, After 6 pt, Before 18 pt)

The article is made into page 1 column with A4 paper size. For Top Margin 2.7 cm, Left Margin 2.54 cm, Bottom Margin 1.75 cm, and Right Margin 1 cm. The manuscript is made using Microsoft Word, single-spaced, 10 pt Times New Roman, and no more than 7-10 pages.

Please choose an article title (maximum 14 words) with the fewest possible words needed to adequately describe the content. The introduction should describe the background of the research, the solutions offered and comparable related work. if the article contains citations, **it is MANDATORY** to use [1], [2] and so on using the Mendeley citation tool in IEEE format. Terms in foreign languages are written in italics (*italics*). **In the first paragraph describe what is the problem in the research (in the form of a paragraph description), also describe what is expected to be the solution to the problem in your research. Next, describe related research that is similar to your research (at least 5) with the latest 5 years before, so that this related research can bring up GAP Analysis from the research you do. At the end of the introduction, describe the goals of your research and the expectations you want to achieve from your research.**

It is recommended for the Author to use the following article structure: **INTRODUCTION (min 700 words) – RESEARCH METHODOLOGY (min 500 words) – RESULTS AND DISCUSSION (min 1800 words)–CONCLUSION (min 200 words)**. Maximum articles of 8-10 pages.

2. RESEARCH METHODOLOGY

2.1 Sub Title 1 (Subtitle Times New Roman 10, Left, After 6 pt)

Contains an explanation of the stages of research (**MUST BE IN THE ARTICLE**) which describes the sequence / stages in conducting research, how the stages of applying methods in research and testing methods in obtaining research results in accordance with research expectations and descriptions. It is better if there is a figure and a table, it should be presented with the name of the table and the figure accompanied by a sequence number. The following is a flowchart of the research stages as shown in Figure 1:

Figure 1. Example of the research process flow

Provide an explanation of the research process stages.

2.2 Sub Title 2 (Subtitle Times New Roman 10, Left, After 6 pt)

Subtitle 2 can also contain the method of solving the problem, as well as the stages of the method. In the manuscript, quotation numbers are sequentially in square brackets [3], as well as tables of numbers and numbers sequentially as shown in table 1 and figure 1.

Table 1. Types of database types
(Table title center, no vertical line, After 6pt, Before 6 pt)

Name	Number	Field
MySQL	10	100
Oracle	15	130
Access	20	400

Provide an explanation of the table that was created.

Figure 2. IT and SI Computer Journal Logo

Use high quality for the image used and provide an explanation of the image used. Formulas use the Formula Editor (EQUATION) found in Microsoft Word. The formula numbering is made in order based on the order of the formulas must use equation, contained in the article, and the writing is like (1).

$$\int_0^{\infty} \exp(-\lambda |z_j - z_i|) \quad (1)$$

$$\int_0^{\infty} \exp(-\lambda |z_j - z_i|) \lambda^{-1} J_1(\lambda r_2) J_0(\lambda r_i) d\lambda \quad (2)$$

3. RESULTS AND DISCUSSION

This section contains the results and discussion of the research topic, which can be made in advance research methodology. This section also represents explanations in the form of explanations, figures, tables and others. The number of words in this section ranges from **min 1800 words**.

3.1 Subtitle 1 (Subtitle, Times New Roman 10 pt, After 6 pt)

1. Lowercase and alphabetic letters for list numbering.
2. The 5 mm setting for the left protrudes inward.
3. If there is more than 1 level of numbering, use number numbering for the next list:
 1. Use numeric numbering.
 2. Next

3.1.1 Subsection Subtitle 1

(For numbering lists use a, b, c and so on)

3.2 Implementation (if any)

Contains the results of the implementation of the application of the method, or the results of method testing.

4. CONCLUSION

This section contains conclusions that answer all the problems contained in the research. The content of the conclusion is not in the form of points, but in the form of paragraphs. The number of words in this section ranges from **min 200 words**.

REFERENCES

(Times New Roman, 10 pt)

All citations of references cited in this article **MUST BE CONTAINED IN THE CONTENT OF THE ARTICLE** and **MUST use reference tools such as MENDELEY in IEEE format**, 80% **PRIMARY** literature (journals, proceedings, research reports, patents, standards, historical documents, research books) and 20% **SECONDARY** literature (books, reliable websites) within the last at least 10 years

The minimum number of references is 15, with each reference including a **DOI**.

Please do not change the Left, Top, Right, and Bottom Paper Margins.
(Remove any extra red information like this in your submission script)
