

*“ The new boy held a slight resemblance to Draco; blonde hair and grey eyes, with a well-balanced posture like that of a noble. But, where Draco was a winter night, he was a heatwave of summer fun. His hair was a little darker, yet brighter. More gold than platinum. His eyes had a youthful, energetic glimmer. Though grey, they were two clouds of a refreshing passing rain. And he was **loud**, they noticed, **very loud**. ”*

&&. Helia Oberon Gilbert, July 10th of 1981. Scottish Highlands, United Kingdom. Born to Marlene McKinnon and an *"unknown father"*.

&&. British, of English and Scottish ancestry: through father and mother, respectively.

&&. Adopted by Arrisk and Illargia Aegenwulf (*née Gilbert*) hours after birth.

&&. Pure Blooded, Gryffindor.

&&. Member of Dumbledore's army. Taught by Harry Potter. Able to produce *both* forms of a patronus. It takes the shape of a large male lion.

&&. Due to his *"new"* father being a werewolf, he became an animagus, alongside with his adoptive sister Ruby. Though his patronus is a lion, he takes the form of an unusually oversized cat with gleaming golden eyes and dark, ashy fur with lighter stops. They were instructed by Minerva McGonagall herself, who only did so, in order to protect them from the raging werewolf.

&&. He is the owner of Dawn, a fluffy and grown Maine Coon with a silver coat and golden eyes matching those of Helia's animagus form.

&&. Though not being involved with any extracurricular activities at Hogwarts, he excels in most classes. *Not* a quidditch player, but good with books. He likes to experiment and learn. Being better at Charms and Transfiguration than in most other subjects. However, he remains either average or above average in all the others.

&&. Not enrolling into sports or duelling does not mean he is unfit. As reflected in his animagus form, he is an excellent acrobat with a cat-like agility, often jumping from one stair to another while they are still changing.

&&. An independent young man, he has worked ever since he was 13. While at Hogwarts, he is a part time employee at *Honeydukes* during the weekends only. In the summers, he works at the *Leaky Cauldron* as a waiter.

&&. Surprisingly, he is his own boggart. Being raised by a family of ex-death eaters did take a toll on the young wizard. He sees a failed, evilish version of himself where he ends up just as the man he believed to be his father.

&&. The *only* thing he still has from his birth family is a sun necklace his birth mother placed on him second after he came into the world. The jewel was a surviving McKinnon, believed to be a good luck charm. He has never once taken it off.

&&. He has a sun shaped birthmark on his chest, right above his heart. This earned him the name *Helia*, derived from Helios (/ˈhiːliəs/; Modern Greek: ἥλιος; Ancient Greek: ἥλιος; Homeric Greek: ἥλιος), Latinized as Helius, is the god and personification of the Sun in ancient Greek religion and myth.

&&. Somehow, both his Patronus and Lumos are golden instead of blue. The cause as to why this is, is still unknown.
