SUMMARY

Use this space to write a two or three sentence summary of who you are as a professional. Include that you are an entry level employee, and because you are entry level take this as an opportunity to mention who you are as an employee. Include whatever experience in your industry that you do have.

WORK EXPERIENCE

Power Support Engineer (Fuel planning) Egypro East Africa Ltd, Nairobi March 2021 — Present

- Developed a new route planning system that reduced fuel consumption and complaints by contractors by 15%
- Worked with the maintenance team to optimize the new energy saving systems for higher performance
- Led a team through profitable fueling for both the company and contractors
- Worked with other power support departments to ensure maximum network availability
- Attend meetings to discuss performance indicators for analysis and recommendations
- Ensure maximum energy efficiency as per the manufacturer's expectations
- Collaborated with cross-functional teams to optimize fuel planning and scheduling design and reduce costs

VOLUNTEER WORK

Worked on freelancing projects on data entry, content creation, data analysis, and presentation. I worked with different clients in the health and education sector to streamline their data entry, storage, analysis, and use enhancing their decision-making and business projections.
