

WEEK TWO - OBJECT DESIGN 110 - COMMUNITY NOTES

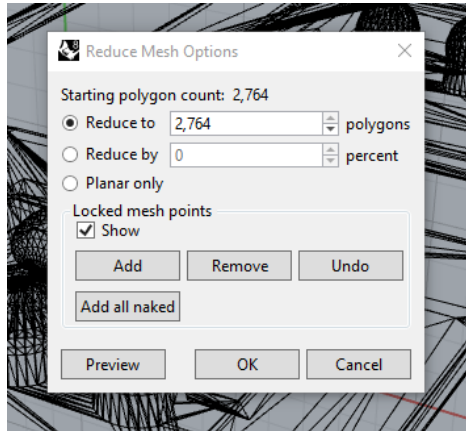

Concept Generation → (Evaluate, critique/rank) → Iteration → (Evaluate) → Refine → Produce
Quantity Over Quality!

When a file is too big to import:

- Import files onto Rhino
 - Note: Log into Rhino using your AUArts email address
- Reduce mesh to reduce file size
 - Type in “ReduceMesh” into **Command:**

- Select an object/model → Press Enter

- **ReduceMesh** = set a target number of triangles to reduce a mesh to
- **Shift+Mouse** move=Stops object from distorting

- To export:
 - Select object/model
 - Export selected
 - Select Drop down menu in "Save as type:"
 - Export file type: STL File

-
