

Early Facebook

Objective: demonstrate understanding of the forces that brought about the most recent Ice Age and the conditions and consequences of the most recent ice age.

Goal: Make a "How to Survive the Coming Ice Age" Poster

Your poster should include: signs that an ice age is coming, ice age weather forecast, land bridge traffic report, animal migration update, and a hopeful message for better days ahead. Feel free to use humor, art, text, and lots of color. Refer to the notes as needed. Visit the Homework calendar posting for October 18th to find a link to all of my notes.
