

# Using Video in the Classroom: A Quick Guide to Resources

by Colleen Worrell, Hopkinton HS

Videos can be used in a wide variety of ways in and beyond the classroom, from introducing basic concepts or explaining more complex ideas, to enabling students to exploration, analyze, and problem-solve. To help guide your instructional practice, we have created this quick guide to supply resources to support your pedagogical approach as well as links to sites with freely available videos for you to use with your students.
