

Thumbnail Sketch Worksheet- COLOR DESIGN PROJECT

Ms. Medsker-Mehalic

*For this project, you will need **12 “main” objects/shapes** that will then be divided up into specific shades and tints with *pure (non brush-strokey) sections of opaque color*. Absolutely, you can mix in realism and the gray scale into the other parts of your work. The subject of your work is entirely up to you. For example, it could be a landscape, seascape, portrait, animal, still life, etc.
