HSD Cases #128-#144

Dear Parents, Guardians, and Staff:

This letter informs you that seventeen (17) individuals in the Haddonfield School District have tested positive for COVID-19. All contact tracing, if any, has been completed.

Please note the most recent change in protocols now recommended by the NJDOH:

Regardless of COVID Activity Level (e.g., High [Orange], Yellow [Moderate] can have a shortened quarantine (which is consistent with how HSD has been operating since moving to Orange two weeks ago.)

Acceptable options to shorten quarantine include:

1. **7-Day quarantine with testing.** Unvaccinated persons can end quarantine after Day 7 after receiving a negative COVID-19 test result collected between Day 5 and Day 7. Quarantine cannot be discontinued earlier than after Day 7.
2. **10-Day quarantine without testing.** Unvaccinated persons can end quarantine after Day 10 if they haven't been tested for COVID-19.

Quarantine exceptions

1. Fully vaccinated individuals do NOT need to quarantine after contact with someone who had COVID-19 unless they have [symptoms](#). However, they should get tested 5-7 days after their exposure, wear a mask indoors in public for 14 days following exposure or until their test result is negative, and get tested and isolate immediately if experiencing COVID-19 symptoms.
2. Individuals who tested positive for COVID-19 with a [viral test](#) within the previous 90 days **and** have subsequently recovered **and** remain asymptomatic do NOT need to quarantine. However, they should wear a mask indoors in public for 14 days after exposure, self-monitor for COVID-19 symptoms, isolate immediately if symptoms develop, and consult with a healthcare professional for testing recommendations.

We continue to ask parents to keep their students home at the first signs of [COVID symptoms](#), especially now that we are seeing a rise in cases in our district and in the region. Also, please notify your school nurse as soon as you receive a COVID+ test, which helps the school district respond in the most efficient manner possible.

While we try to consolidate these notices to be more efficient in our communications, please note that the [HSD Active COVID+ & Vax Dashboard](#)s are updated daily and available on the HSD website.

Please [click here for the most up-to-date version of HSD's COVID-Related Decision Tree](#).

Case #128: Central

- The individual is a male in his 10's.
- Symptomatic on the evening of Monday, December 20, tested on Monday, December 20, and received results on Monday, December 20.
- The "look back" date is Saturday, December 18.
- Last day in school was Monday, December 20.
- Based on currently available information, it is unlikely that this individual contracted the virus in school.

Case #129: HMHS

- The individual is a male in his 10's.
- Symptomatic on the evening of Friday, December 17, tested and received results on Monday, December 20.
- The "look back" date is Wednesday, December 15.
- Last day in school was Friday, December 17.
- Based on currently available information, it is unclear whether this individual contracted the virus in school.

Case #130: HMS

- The individual is a female in her 10's.
- Symptomatic on the evening of Monday, December 20, tested and received results on Tuesday, December 21.
- The “look back” date is Sunday, December 19.
- Last day in school was Monday, December 20.
- Based on currently available information, it is unclear whether this individual contracted the virus in school.

Case #131: Central

- The individual is a juvenile male (under 10).
- Symptomatic on the evening of Tuesday, December 21, tested and received results on Tuesday, December 21.
- The “look back” date is Sunday, December 19.
- Last day in school was Tuesday, December 21.
- Based on currently available information, it is unclear whether this individual contracted the virus in school.

Case #132: Central

- The individual is a female in her 50's.
- Symptomatic on the evening of Sunday, December 19, tested on Monday, December 20, and received results on Tuesday, December 21.
- The “look back” date is Friday, December 17.
- Last day in school was Thursday, December 16.
- Based on currently available information, it is unclear whether this individual contracted the virus in school.

Case #133: HMHS

- The individual is a female in her 10's.
- Symptomatic on the evening of Tuesday, December 21, tested on Tuesday, December 21, and received results on Wednesday, December 22.
- The “look back” date is Sunday, December 19.
- Last day in school was Tuesday, December 21.
- Based on currently available information, it is unclear whether this individual contracted the virus in school.

Case #134: HMHS

- The individual is a female in her 10's.
- Symptomatic on the evening of Tuesday, December 21, tested and received results on Tuesday, December 21.
- The "look back" date is Sunday, December 19.
- Last day in school was Tuesday, December 21.
- Based on currently available information, it is unclear whether this individual contracted the virus in school.

Case #135: HMHS

- The individual is a female in her 20s.
- Symptomatic on the evening of Wednesday, December 22, tested and received results on Wednesday, December 22.
- The "look back" date is Sunday, December 19.
- Last day in school was Tuesday, December 21.
- Based on currently available information, it is unclear whether this individual contracted the virus in school.

Case #136: Tatem

- The individual is a juvenile male (under 10).
- Symptomatic on the evening of Saturday, December 18, tested and received results on Tuesday, December 21.
- The "look back" date is Thursday, December 16.
- Last day in school was Monday, December 13.
- Based on currently available information, it is unclear whether this individual contracted the virus in school.

Case #137: Tatem

- The individual is a female in her 20 's.
- Asymptomatic, tested and received results on Wednesday, December 22.
- The "look back" date is Monday, December 20.
- Last day in school was Tuesday, December 21.
- Based on currently available information, it is unclear whether this individual contracted the virus in school.

Case #138: Haddon

- The individual is a male in his 20 's.
- Asymptomatic, tested and received results on Tuesday, December 21.
- The “look back” date is Sunday, December 19.
- Last day in school was Monday, December 20.
- Based on currently available information, it is unclear whether this individual contracted the virus in school.

Case #139: Central

- The individual is a juvenile male (under 10).
- Asymptomatic, tested and received results on Wednesday, December 22.
- The “look back” date is Monday, December 20.
- Last day in school was Wednesday, December 22.
- Based on currently available information, it is unclear whether this individual contracted the virus in school.

Case #140: HMS

- The individual is a male in his 10 's.
- Symptomatic on the evening of Wednesday, December 22, tested and received results on Wednesday, December 22.
- The “look back” date is Monday, December 20.
- Last day in school was Wednesday, December 22.
- Based on currently available information, it is unclear whether this individual contracted the virus in school.

Case #141: HMS

- The individual is a male in his 10's.
- Symptomatic on the evening of Tuesday, December 21, tested and received results on Wednesday, December 22.
- The “look back” date is Sunday, December 19.
- Last day in school was Tuesday, December 21.
- Based on currently available information, it is unclear whether this individual contracted the virus in school.

Case #142: HMHS

- The individual is a female in her 10's.
- Symptomatic on the evening of Tuesday December 21, tested and received results on Wednesday, December 22.
- The “look back” date is Sunday, December 19.
- Last day in school was Tuesday, December 21.
- Based on currently available information, it is unclear whether this individual contracted the virus in school.

Case #143: HMHS

- The individual is a male in his 10 's.
- Symptomatic on the evening of Monday, December 20, tested on Monday, December 20, and received results on Wednesday, December 22.
- The “look back” date is Saturday, December 18.
- Last day in school was Friday, December 17.
- Based on currently available information, it is unclear whether this individual contracted the virus in school.

Case #144: Haddon

- The individual is a male in his 10 's.
- Symptomatic on the evening of Wednesday, December 22, tested and received results on Wednesday, December 22.
- The “look back” date is Monday, December 20.
- Last day in school was Wednesday, December 22.
- Based on currently available information, it is unclear whether this individual contracted the virus in school.

Please note that all COVID+ messages sent by the district are archived on our website at <https://haddonfieldschools.org/covid-messages-2021-22/>.

Sincerely,

Gino R. Priolo, Ed.D.

Assistant Superintendent of Schools
