

Terms of Use

AI Notes: Voice to Text · Last updated 10 August 2026

These terms cover your use of AI Notes: Voice to Text ("the app"), made by codiee. By installing or using the app you agree to them.

What you get

A licence to use the app on Apple devices you own or control, as described in Apple's standard End User Licence Agreement, which applies to this app alongside these terms. The licence is personal and cannot be transferred.

What you record is yours

Your recordings, transcripts, summaries and tasks belong to you. They stay on your device, and we claim no rights over them.

What the app does not promise

Speech recognition and summarising both run on your phone and both make mistakes. Transcripts will contain errors; summaries and extracted tasks may miss things or misread them. The app is a convenience, not a record of what was said, and should not be relied on where accuracy matters – legal, medical or financial decisions among them.

Recording other people may require their consent, and the law on this differs from place to place. Complying with it is your responsibility.

Fair use

Do not use the app to break the law, to record people who have not agreed to it where their agreement is required, or to attempt to interfere with the app's operation or its purchase checks.

Subscriptions

- AI Notes PRO is sold as an auto-renewing subscription, and also as a one-off lifetime purchase.
- Payment is charged to your Apple Account when you confirm the purchase.
- A subscription renews automatically unless auto-renew is turned off at least 24 hours before the end of the current period.
- Your account is charged for renewal within 24 hours before the end of the current period, at the price shown when you bought it.
- You can manage the subscription and turn off auto-renewal in your Apple Account settings after purchase.
- Where a free trial is offered, any unused part of it is forfeited when you buy a subscription.
- Refunds are handled by Apple, at reportaproblem.apple.com.

Price and feature changes

Prices may change; an increase never applies to a period you have already paid for, and Apple asks you to confirm before it takes effect. Features may be added or removed as the app develops.

Ending it

You can stop using the app and delete it at any time. We may end the licence if these terms are broken.

Liability

The app is provided as it is. To the extent the law allows, we are not liable for losses arising from using it, including anything that follows from an inaccurate transcript or summary. Nothing here limits liability that cannot be limited by law, and you may have consumer rights these terms do not affect.
