

# MCTE 2025 Spring Conference

## Presenter Notes

**Session title:** *Classroom Dialogue Across Differences*

In today's challenging political climate, the skills for civic-minded and evidence-based democratic deliberation are essential. Paideia (pie DAY a) pedagogy encourages student-centered, democratic discussions around a common text. Students improve their critical thinking, reading, listening and speaking skills. We'll participate in a mini-seminar and debrief practices that improve classroom discussions.

**Presenter/s:** Rachel Malchow Lloyd, Augsburg University
