

Privacy Policy for EchoMindMap

****Last updated:**** October 26, 2023

Thank you for using Sonirra ("we," "us," or "our"). This Privacy Policy is designed to help you understand how we collect, use, and safeguard your information when you use our mobile application (the "Service").

Your privacy is critically important to us. At EchoMindMap, we have a few fundamental principles:

- We don't ask you for personal information unless we truly need it.
- We don't share your personal information with anyone except to comply with the law, develop our products, or protect our rights.
- We don't store personal information on our servers unless required for the on-going operation of one of our services.

1. Information We Collect

The primary function of Sonirra is to visualize the user's voice. To provide this service, the app requires access to your device's microphone.

* ****Microphone Data:**** We process audio data from your microphone in real-time to generate visualizations based on tone and amplitude. ****We do not record, store, or transmit your audio conversations or any audio data.**** The audio is processed locally on your device and is discarded immediately after the visualization is created.

* ****Snapshots:**** The app allows you to take "snapshots" of the visualizations. These snapshots are images and are stored locally on your device's storage. We do not have access to these files unless you choose to share them.

* ****Usage Data:**** We may collect anonymous, aggregated usage data to help us improve the app. This may include information about which features are used, session duration, and crash reports. This data does not personally identify you.

2. How We Use Your Information

We use the information we collect solely for the following purposes:

- * To provide and maintain the core functionality of the app (voice visualization).
- * To improve the user experience and develop new features.
- * To ensure the stability and security of the application.

3. Data Sharing and Disclosure

We do not sell, trade, or otherwise transfer your personally identifiable information to outside parties. All audio processing is done on your device. We do not share your data with any third parties, except in the following cases:

- * If required by law, such as to comply with a subpoena or similar legal process.
- * To protect our rights, your safety, or the safety of others.

4. Data Security

We are committed to protecting your data. Since we do not store personal audio data, the risk of a related data breach is minimized. Any locally stored snapshots are under your control on your device.

5. User Rights

You have full control over the app's access to your microphone. You can grant or revoke this permission at any time through your device's settings menu.

6. Changes to This Privacy Policy

We may update our Privacy Policy from time to time. We will notify you of any changes by posting the new Privacy Policy within the app and updating the "Last updated" date at the top of this policy.

7. Contact Us

If you have any questions about this Privacy Policy, please contact us at [YOUR_SUPPORT_EMAIL@example.com].
