STUDENT FINAL RESEARCH RUBRICS	NAU-UCRD-F17F

Research Title: _____ ___
Proponent (s): _____ ___
Date of Review: _____ ___

Criteria	4	3	2	1	Remarks
The problem statement follows clearly from the survey of the literature.					
The proposed unit of analysis (subjects, participants, couples, situations, texts, *etc*.) clearly described in terms of the following: a. their number (e.g., sample size) b. their background (e.g., sex ethnicity, etc. in the case of research participants) c. c. how they are to be obtained recruited					
It is indicated whether the necessary permission for the cooperation of the participants has been obtained or will be obtained					
The treatment (e.g., any intervention) of the units of analysis is described or specified clearly.					
The measuring instruments to be used fit in with the theoretical background and/or literature survey.					
The proposed procedure for analyzing the obtained information (e.g., statistical method) specified.					
The proposal presented in terms of all of the headings required by the University Center for Research.					
The results were presented chronologically and in-order.					
The results answered all the research problems.					
The Discussion presented important key findings of the research.					
The Discussion used the research frameworks.					
The Discussion presented a thorough implications and limitations.					
The Discussion included conclusions.					

Decision Guide:

4 – Highly Acceptable	Meets or exceeds all requirements; no major revisions needed
3 – Moderately Acceptable	Meets most requirements; minor revisions needed
2 – Slightly Acceptable	Meets some requirements; significant revisions needed
1 – Not Acceptable	Does not meet requirements; major revisions or resubmission required

Evaluator: _____

Don Mariano Marcos Avenue, Laoag City, 2900, Ilocos Norte, Philippines
