3			

2 Product idea

Title of the invention or product: _____

Problem and intended users

What problem does your product solve, and who would use it?

Proposed solution and originality

Briefly describe your product, how it works, and what makes it new or different.

3 Prototype and presentation

Current stage: ☐ Idea ☐ Design ☐ Prototype in progress ☐ Working prototype

Prototype development plan

What is ready, what remains to be completed, and how will you demonstrate the prototype on 06 November 2026?

Presentation requirements

State any electricity, equipment, space, internet, or safety arrangements needed. Write "None" if not applicable.

4 Business potential and impact

Customers and market potential

Who would buy or use the product? Briefly explain the demand and existing alternatives.

Estimated costs and revenue

Give the estimated prototype cost, expected selling price if known, and how the product could earn income. Mark figures as estimates.

Benefits and future development

Explain the main benefits and how you could improve or expand the product. Mention social or environmental benefits where relevant.

5 Supporting material

If available, attach a labeled photograph, sketch, or brief supporting description of your product. List any attachments below.

6 Declaration

I/We confirm that the information provided is accurate to the best of my/our knowledge. I/We confirm that the contribution of others and any use of existing ideas or designs have been acknowledged. I/We understand that the competition requires a product prototype and a presentation to an evaluation panel.

Applicant or team leader name: _____

Signature: _____ Date: _____

Organised by the Department of Human Resource Management, Faculty of Commerce and Management Studies, University of Kelaniya.
