

SmallGuy ASI ("the App") is built with a core directive of 100% user privacy.

1.

NO DATA COLLECTION: The App does not collect, store, or transmit any personal information, contacts, call logs, or location data to external servers.

2.

LOCAL PROCESSING: All AI heuristic analysis and spamblocking occur locally on the user's hardware.

3.

NO THIRD-PARTY SHARING: Because we collect no data, we have no data to sell or share with third parties.

4.

PERMISSIONS: The App requires Call Log and Phone permissions solely to function as a local spamblocker. These signals never leave the device.
