Provide enough detail for replication. Use the sub-sections below (rename/remove as appropriate). (Cambria font size 10 pt with 1.15 spacing).

Study design

[Design and rationale.]

Setting and period

[Location type (masked if it reveals identity) and study period.]

Population and sampling

[Inclusion/exclusion criteria, sampling method, sample-size justification.]

Variables and instruments

[Definitions of exposures/outcomes; instruments/software with source and version.]

Data collection

[Procedure and quality control.]

Statistical analysis

[Tests, significance threshold, software.]

Ethical approval

[State ethical-clearance body and approval number, plus informed consent. Mask the committee/institution name if it can identify the authors.]

RESULTS

Results may be presented using tables, charts/figures/flowcharts or transcripts.

Results must be presented clearly and logically.
