Product La Crosse Technology BC1000 Alpha Power Battery Charger Information

Recharge your batteries! Quickly and easily charge AA and AAA batters with La Crosse Technology's quintessential battery charger.

The BC1000 Alpha Power Battery Charger can be used to fill all NiMH or NiCd rechargeable batteries, AA & AAA.

Simultaneously charges multiple AA or AAA batteries, and can be set to different charging currents: charge, discharge, refresh, and test.

Defaults to 200mA and automatically switches to a trickle charge after completion to ensure maximum battery capacity. Overheat detection so not to overcharge and the charger will detect a dead battery.

Great gift idea for photographers, toy operators, and constant battery users. Completely portable and great for on the go or just keep it in your home for daily use!

What's In the Bag?

• Sturdy Adjustable Nylon Carrying Tote Bag with detachable metal clips

• Spacious inside double pockets

• Webbed side sleeve for additional storage

• Includes 4 AA & 4 AAA NiMH rechargeable (shrink-wrapped) batteries

• AC power adapter

• Front Zippered kangaroo pouch includes individual pockets to carry included 4 C size 1.2v battery adapters which are included inside 4 D size adapters

Special Features:

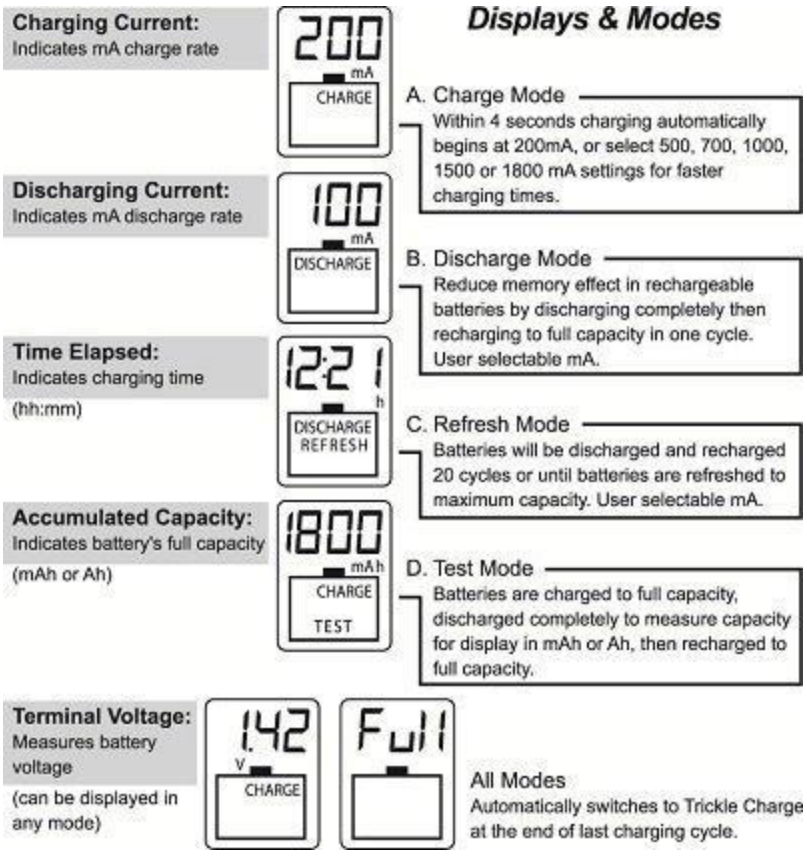

• LCD display capacity level after completion

• Simultaneously charges AA & AAA, both NiMH or NiCd rechargeables

• Select different currents: charge, discharge, refresh, test

• Automatic trickle charge for maximum battery life

• Detects dead batteries & overheat protection

Simple Operation:

1. Plug AC power adapter into charger & wall outlet. Insert batteries
2. Select Mode: Charge, Discharge/Charge, Refresh/Charge, Test/Charge
3. Select Charging Current (Rate): 200mA up to 1800mA

Specifications:

• Charges Battery Types: AA/AAA NiCd and NiMH

• Input voltage: 100-240 VAC but MUST have the proper adapter.
(Twisting prongs on A/C cord will damage unit)

• Charging Current: Selectable charging current : 200, 500, 700 or 1000mA.
When only channel 1 and/or channel 4 are used, can select up 1500 or 1800 mA.

• Max Charging Capacity: 3000 mAh

Table 1. Charging Time with various charging current			
Size of battery	Battery Capacity	Charging current selected (mA)	Estimated charging time
AA	2600 mAh	1800	~80 min
		1500	~100 min
		1000	~2 hr 30 min
		700	~3 hr 30 min
		500	~5 hr
		200	~12 hr
AA	2000 mAh	1800	~70 min
		1500	~80 min
		1000	~2 hr
		700	~3 hr
		500	~4 hr
		200	~10 hr
AAA	1000 mAh	700	~70 min
		500	~1 hr 40 min
		200	~4 hr

Product Features

- Works with all nicd and nimh "AA" and "AAA" rechargeable batteries; charges AA and AAA rechargeable batteries simultaneously
- LCD shows capacity for each battery when charging is complete
- Select different charging current for each channel: charge, discharge, refresh, and test.
- Automatically switches to trickle charge when charging is complete to ensure maximum battery capacity
- Overheat detection to protect over-charging
- Charges aa and aaa rechargeable batteries simultaneously
- Select different charging current for each channel: charge, discharge, refresh, test; automatically switches to trickle charge when charging is complete to ensure maximum battery capacity
- Works with all nicd and nimh "aa" and "aaa" rechargeable batteries
