Editorial Body Journal *AquaTechnica*

Facultad de Acuicultura y Ciencias del Mar
Universidad Técnica de Manabí
Ecuador

Dear Editor of *AquaTechnica*.

Following the journal's rules, the manuscript entitled "XXXXX" is attached to be evaluated for publication in the scientific journal *AquaTechnica*.

The study assumes (**indicate the importance and originality of the work**), which may contribute (**indicate what the contribution would be**) to aquaculture development.

Hereby, all authors declare, through me (the corresponding author), that the manuscript is the product of the intellectual interaction of all its authors, and we agree to submit the manuscript to the journal *AquaTechnica*.

The manuscript has not been published, and it is not currently submitted to another scientific journal or media outlet with arbitration validation.

We also express that we do not have any conflict of interest among authors and institutions (if there were a conflict of interest, declare it with an explanatory description). Likewise, we express that we have followed the good practice guidelines for the care and use of animals in scientific research expressed in XXXX.

The work was performed by the authors named below with their participation, which we include in this document in the authors' contribution declaration section, according to the following structure:

Author 1: Research design and development, data analysis, preparation and editing of the manuscript.

Author 2: Research development, data analysis, research conceptualization.

Author 3: Editing and writing of the final manuscript, data analysis, Achievement of funding for the research project.

Author 4:.....

Indicate in this letter the proposal of 3-4 potential evaluators, indicate their full name, affiliation, email and a short phrase justifying why they could be a potential evaluator, for example: specialist in the topic.

Yours sincerely.

XXXXX
