VARIABLES FOR DISCUSSION

- ___ Unpaid FMLA, LTS positions and new hire teacher salaries are continually analyzed and the potential savings will fluctuate each reporting period.
- ___ Special Education tuition and transportation expenditures will continue to fluctuate, as there are currently two potential outplacements pending that are not reported. Current projection includes an increase of seven students from the approved budget amount/count.
- ___ Excess Cost Reimbursement is projected at 70% of eligible costs and will be monitor to determine if the State will fund at the appropriate tier (Wethersfield is identify as a Tier II district for this purpose and should receive 88% reimbursement rate).
- ___ Magnet school enrollment and tuition are still under review (11 general ed students without registration/verification) and will be finalized by next period. Magnet school students receiving specialized services may incur additional costs beyond budgeted tuition.
- ___ High dollar items budgeted within Curriculum and IT are currently being monitored and/or deferred as there may be a need to mitigate an additional increase in the projected deficit.
