Interview with SAVE Director at PS/MS 206:

1. What is PS 206's current protocol to vaping on school grounds?
    - "Report it to the SSA (School Safety Agent) and administration."

2. Is vaping prohibited on school grounds?
    - "Yes, it is prohibited."

3. If a child is caught vaping, does the child get suspended?
    - "That can be a consequence, but it is not the first response. Parent contact is made, and a likely response is counseling. Since marijuana is legal, now the police do not need to be notified. However, the SSA supervisor can call our Youth Officers and have them have a conversation with the student and parent involved."
