March 22, 2024

Dear Greenwich Township School District Families,

Happy Spring! Hopefully warm, sunny weather follows suit with the onset of Spring. At our last board meeting the calendar was updated to reflect the Solar Eclipse that will be occurring on April 8, 2024. The eclipse will take place throughout our dismissal times. Since it is not recommended to view the solar eclipse with your unprotected eye, we will be having an early release day to safely get students home to view this with their families. Attached in this letter is information about the eclipse and how to create a solar eclipse viewer. The calendar has now been fully updated for the year and can be found on our district website, this link is also below.

Please make note that at the elementary school we had a sinkhole at the end of the driveway. The township has come in to fix the sinkhole but it may take some time before we can get asphalt on top. This is adding to traffic issues at GES. As a reminder, you are NEVER allowed to pass the line of traffic by going down the left hand side of the road. This is very dangerous for our students on the path and the oncoming traffic. We thank you for your understanding.
