Today, we conclude announcements by recognizing Veterans Day. This is a significant holiday in the United States of America, as we have the opportunity to honor veterans of the United States Armed Forces on this holiday. This is a great opportunity for us as a community to recognize and pay tribute to the individuals that have served the United States as a member of one of the branches of the military, and to thank them for their service and sacrifice on behalf of our great nation.

Veterans Day is observed on November 11th each year in correlation with Armistice Day. Armistice Day commemorates the end of World War I, which concluded with an armistice agreement between the Allies & Germany on the 11th hour of the 11th day of the 11th month of 1918. Hence, Armistice Day, now celebrated as Veterans Day in the United States, is celebrated each year on November 11th.

Many of our students, faculty, and staff, have close connections with active duty members and veterans of the United States Armed Forces. I encourage each of you today to commit to contact one of your friends or family members that is either in active duty or is a veteran of our military, and to thank them for their service. It is because of their service and sacrifice that we enjoy the many freedoms, opportunities, and experiences in our lives in the United States.

At this time, please join all of our students, teachers, and staff in honoring the United States, as the outstanding students of the Erie High School Choir sing the Star Spangled Banner. Teachers, please walk with your students to your designated area to hear the National Anthem.
