

1Skolråd 2024-05-21

Plats:

Närvarande: **Förnamn + Efternamn + Klass**

Marcus Andersson NA22D

Julius Åberg NA22D

Lou Jamet IB22

Donat Varga IB22

Aria Carlström HU23B

Andreas Widmark, rektor

Ordförande: Aria

Sekreterare: Marcus

Justerare: Mahin Javed

Mötespunkter:

☒ Mötets öppnande.

☒ Rektor informerar.

Not much information

Meet at Svandammen, outside Flustret 8:00, march toward Skrapan

We're going to have a marching band!

Skrapan plays drums, but we have real instruments. Perhaps 20-25 instruments. The principal thinks it's going to be quite awesome.

The athletic portion is one battle, but presentation and cheering is important too!

Fyrissskolan will be put down. Next year, from August, Ekeby will be part of Katedralskolan.

Andreas will be principal over Ekeby too, where culinary people are taught. These people will be able to be part of Kåren, and will be able to enter the school.

☒ Punkter till rektorn.

SA:

Group rooms should be unlocked.

IB:

No sofa has replaced the prior one, but this was expected.

Easier access to group rooms could be nice. Asking teachers can be difficult.

There's a lack of studying rooms. Some are enterable without booking or asking a teacher. At the end of the year, teachers are more in need of booking the rooms, so teachers are prioritized.

(To food council: Shakers instead of spooning spices. Food is too spicy. Spaghetti shouldn't be cut.)

More tables outside?

Cafeteria is going to be rebuilt. Was told it was going to begin this summer, but now says the new cafeteria is starting to be rebuilt next summer. It might be finished spring semester 2026.

Rules have been made more strict in order to be able to go to exams.

The national programs encourage the students to come to tests, even if they've haven't attended lessons.

IMS:

NA:

Librarian is gone, so it's hard to bring back books.

This was from a week ago, the librarian is now back.

HUM:

Orchestra is controversial.

...

Better schedule, please.

BF has in general had trouble with the schedule.

Features in Teams should be used by teachers, such as the calendar.

Outlook was used for class calendars. Making send lists by yourself is difficult, because changes happen often. To put things in calendars smoothly, would require synchronization. In Unikum, it's quite easy to say "send this to all year 1s", which is less difficult in Teams. The question is whether we'll use Unikum or Teams for communication and administration. Actually, teachers like Unikum better now than they did in August. The functions teachers have used in Unikum as of yet, have been basic and scarce. Unikum says themselves that Unikum shouldn't be used for communication in classes, but it is good at gathering information about grades and other administration.

Some exams aren't put in the exam calendar.

Teachers should arrive on time.

There's a HDMI/USB cable that sometimes gets wrongly plugged in to the screen, which makes the sound not work.

Another department fixes technical issues. Sometimes the solution by them is as easy as dragging out this cable. Teachers should use the screen the way they've been taught.

☒ Övriga frågor.

The Påverkan/Impact chat had problems as people spammed, kicked people and was less organized. However, we now has a team on Teams, which is better and more controlled. The chat will soon be disbanded.

Now that we have a team going, we have gone outside of Uppsala Kommuns box. If we show that the team works well, hopefully similar things can be done at other schools.

☒ Skicka protokoll till representanterna

☒ Mötet avslutas.
