

### **CMALS Case Studies**

We are keen to share the impact of the work that is done within the different parts of CMALS. The below form offers the opportunity to share some of the work you have done. The aim is that each case study is more than one paper, but instead a group of related work in an area, so please try to submit things jointly with others in the same area. Examples of previous and current case studies can be found on the [CMALS website](#) under 'Case Studies'.

To submit, please send to [vinny.davies@glasgow.ac.uk](mailto:vinny.davies@glasgow.ac.uk). To edit, please go to File, then download and edit the document. If you wish to update it, then please just resubmit the updated form or email with a detailed list of changes.
