

# Berry Jello Cake

- 1 white cake mix
  - 4 eggs
  - 1/2 c. water
  - 1/2 c. oil
  - 1 c. sour cream
  - 1 pkg. white chocolate pudding mix
- 1 pkg. frozen berry medley
  - 1/2 c. sugar
- 1 small pkg. raspberry Jello
  - 3/4 c. water
- 1 8oz. pkg. frozen whipped topping or some whipped heavy cream

Mix & bake white cake mix according to above directions and cool completely. While cake is cooling, thaw berries in microwave, cover with sugar, and mash with potato masher or processor. Let sit to bring out juices and flavor of berries. When cake is cooled, boil water for Jello, dissolve Jello pkg. completely, and ***instead of adding cold water***, pour Jello into berry mixture. Poke very large holes in cake, or fork up completely. Pour berry Jello mixture over cake, except for about 3/4 cup. Mix whipped topping into reserved berry Jello mixture, and spread over cake. Refrigerate until Jello is set, at least 2 hours, preferably more than 4.
