Let Us Install Our A.I Business Machine In Your Business:

<https://calendly.com/theaimastery/a-i-business-machine-roadmap-call>

In this document, I will reveal a NEW, SIMPLE, AUTOMATED, EVERGREEN A.I Business Machine that we're using to generate qualified leads, appointments & sales every single day.

| Results ▾ | Cost per result ▾ | Reach ▾ | Impressions ▾ | Amount spent ↑ ▾ |
|-------------------------|-------------------------|------------------|------------------|-------------------------|
| 4 [2] Website leads | \$20.82 [2] Per Lead | 5,014 | 7,413 | \$83.28 |
| 16 [2] Website leads | \$12.76 [2] Per Lead | 14,108 | 20,910 | \$204.10 |
| 55 [2] Website leads | \$11.64 [2] Per Lead | 44,334 | 75,105 | \$640.04 |
| 75 [2] Website leads | \$12.37 [2] Per Lead | 56,334 People | 103,428 Total | \$927.42 Total Spent |

It's called the A.I Business Machine, and It's unlike anything you've seen before because it can systematically & automatically bring in more leads, set up appointments, and boost your sales.

This means your business can grow and make more money without you having to do all the hard work.

And, as you'll see, it can be managed in-house, by just one person, in **LESS THAN AN HOUR A DAY**.

The beauty of this system lies in its scalability, requiring minimal adjustments as you scale. We've continuously utilized it to generate more than \$1 million in revenue for our own businesses, and our done-with-you clients.

My name is Keano Katalan.

And over the past 5 years I've been building systems and A.I-Powered solutions for all different types of businesses.

From real estate, to solar, medspas, gyms, pressure washing, roofing, chiro and the list goes on and on..

hey Keano,

I'll admit I was skeptical initially, but your AI Business Machine has turned me into a true believer. The results speak for themselves, and the support from your team has been exceptional!! Thanks for helping me navigate the world of AI with confidence.

Cheers,
Bryan

It was our pleasure!

Glad to hear it!

Glad you enjoyed it!

😊

We've helped build over 740 A.I Business Machines in the past four years, creating hundreds of A.I powered funnels and offers, while generating tens of thousands of qualified leads & appointments for our clients.

Everything we do for our businesses and our clients centers around efficiency.

Our goal is to generate the most money with the least number of team members, complexity, or time required.

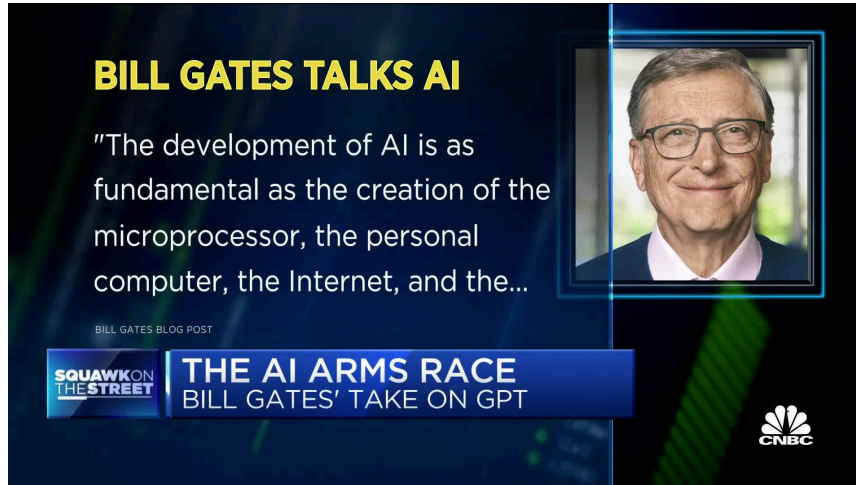

This is reflected in my own businesses, where we've saved 100's of hours every single month, generated \$1M+ with less than 15 employees while I've had the free time to take a lot of trips a year with friends and family and run everything on auto-pilot.

You see..

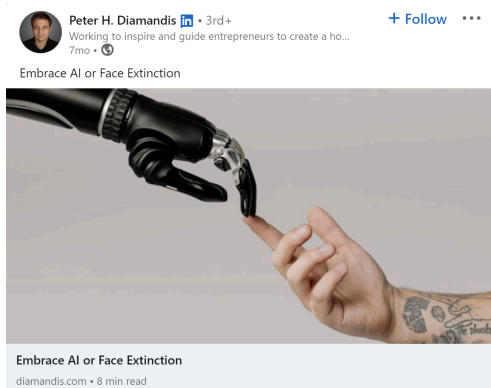

As Bill Gates, Google co-founder Sergey Brin, Elon Musk, and many industry titans have noted...

“AI IS THE MOST IMPORTANT TECH ADVANCE IN DECADES”

Or as Peter Diamandis, executive chairman of Singularity University recently put it...

"EMBRACE AI OR FACE EXTINCTION" -

Whilst at first glance, these statements may sound like hyperbole...

They are absolutely, 100% true.

AI has arrived...

... and it's only getting smarter, faster, and better in every way from here.

OpenAI researchers warned board of AI breakthrough ahead of CEO ouster, sources say

By Anna Tong, Jeffrey Dastin and Krystal Hu

November 23, 2023 9:52 AM GMT · Updated 3 hours ago

Nov 22 (Reuters) - Ahead of OpenAI CEO [Sam Altman's four days in exile](#), several staff researchers wrote a letter to the board of directors warning of a powerful artificial intelligence discovery that they said could threaten humanity, two people familiar with the matter told Reuters.

The previously unreported letter and AI algorithm were key developments before the board's ouster of Altman, the poster child of generative AI, the two sources said. Prior to [his triumphant return](#) late Tuesday, more than 700 employees had threatened to quit and join backer Microsoft ([MSFT.O](#)) in solidarity with their fired leader.

Now, Discussions around AGI safety are outside the scope of what I'm here to talk to you about today, but, one thing is for sure...

Things are only speeding up from here.

The Genie IS out of the magic lamp, and it's not going back inside.

Peter Diamandis' warning to businesses to "EMBRACE AI OR DIE" is not hyperbole...

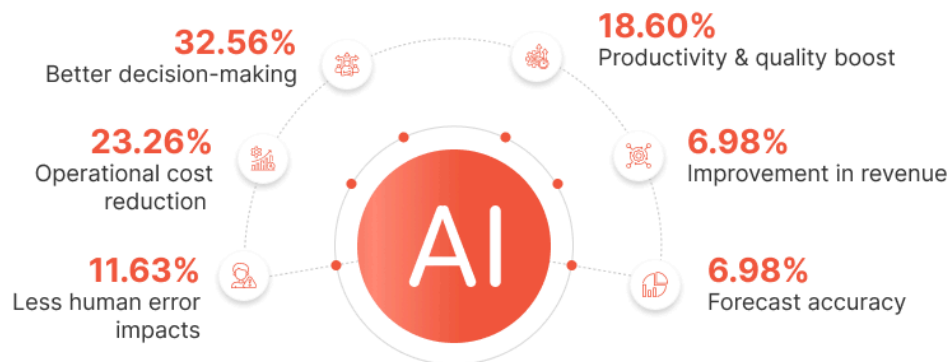

It's a fact.

Businesses that do not leverage AI...

And leverage it SOON... as in the next 6 - 12 months...

Are going to be left in the dust... wondering what the heck happened, virtually overnight.

Major Benefits Of AI Adoption For Business

And *this* is where the opportunity lies...

Those who are ready and prepared for this opportunity will in store for the financial adventure of a lifetime.

Right place, right time, right system.

You see..

In this digital age, sticking to old, manual processes is the equivalent of sailing a wooden ship when everyone else is cruising on a high-speed yacht.

It simply no longer works.

it's not just about the volume of work;

It's about the combined expertise and the efficiency created together.

Your business aspects, much like different cogs in a well-oiled machine, should collaborate seamlessly and effortlessly to make the overall operation a masterpiece.

If you're still stuck in manual mode, that harmony remains elusive.

So why is sticking to old, manual processes such a money pit?

Well, when you run your business the old-fashioned way, you're sacrificing precious time, which is your most valuable resource.

Time spent on repetitive tasks means less time for innovation, client relations, and business development.

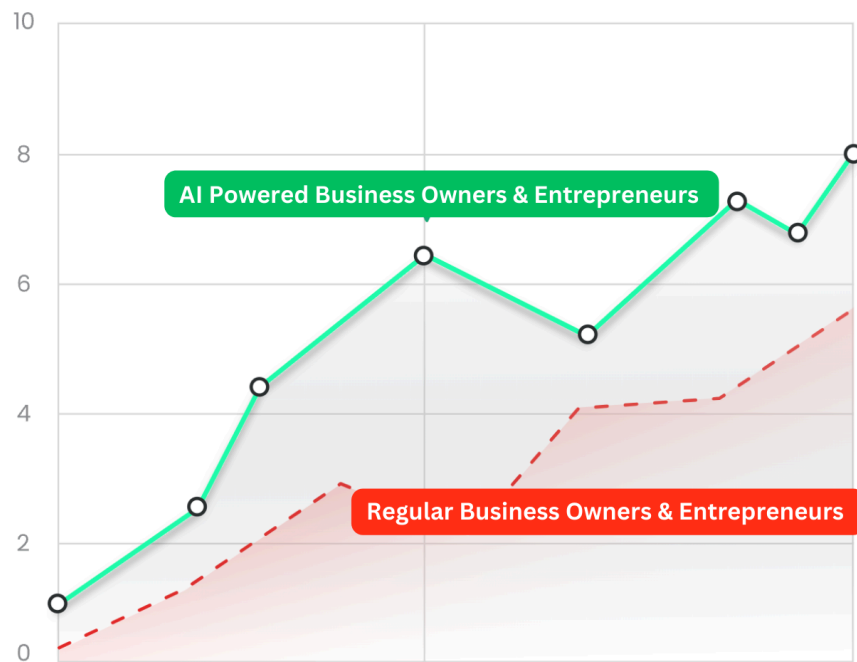

That's a drain on your growth potential.

Furthermore, inefficiencies in manual processes lead to increased overhead costs.

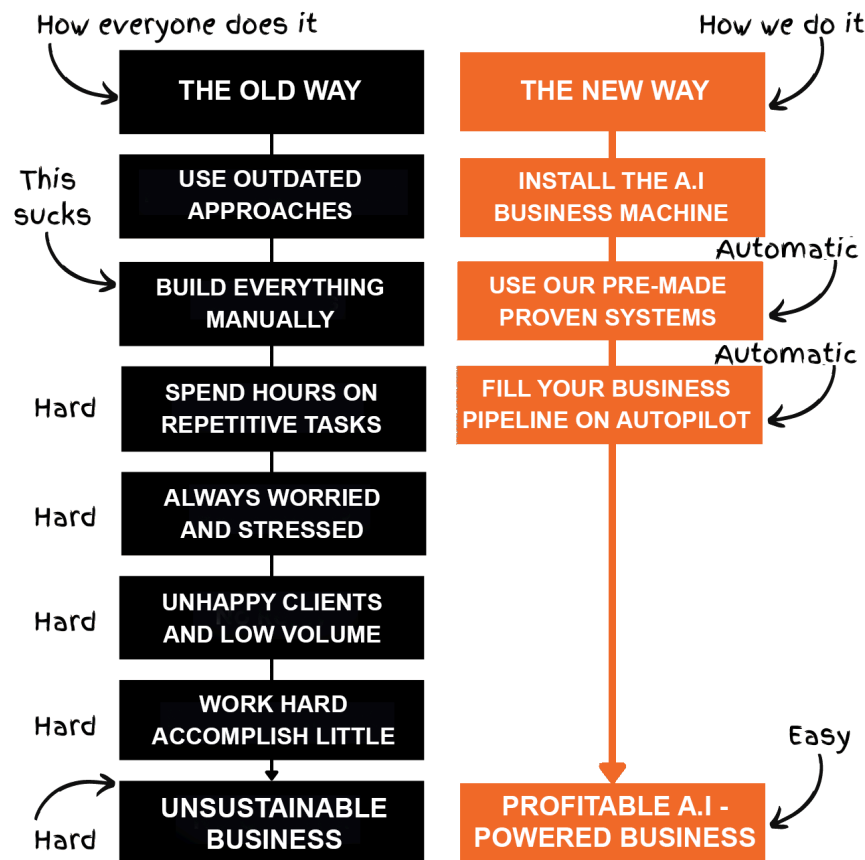

Not to mention the margin for human error that comes with manual data entry, which can lead to costly mistakes.

I know because in the past I've spent tens of thousands of dollars every month fixing these mistakes.

Financial And Productivity Comparison

This is the “old way” of marketing & client acquisition.

The traditional approach to running a business is no longer effective, primarily because speed is paramount in today's world.

And trying to do everything manually forces a company to rely on a handful of superstar salespeople, maybe even the founders themselves, creating a massive operation drag & bottleneck in the business.

Now..

A.I. is the pinnacle of speed.

Speed is what makes it so dominating and crushing.

Speed is why AI will conquer Earth.

It creates work that is at 1000x the speed.

Instead of one creation done by a human.

AI will create one thousand creations and its human pilot can then select the best one for the task.

In short, A.I = More leads, appointments & sales.

Our tracking systems confirm this.

For every client we've had using the system, their operations needed a nudge.

Lead flow wasn't consistent, speed to lead was subpar and a lot of money was wasted on unsuccessful marketing campaigns and agencies.

This may seem like it's a dead-end.

But it's not.

We've crafted this A.I Business Machine after analyzing hundreds of businesses' operations to systematically generate more leads who trust them, and thus book appointments & buy again and again.

The solution doesn't require hiring more employees, it isn't how you optimize your advertising campaigns, and it doesn't require spending all day in the DMs, or posting more content.

The solution is an AUTOMATED A.I Business Machine That Can Be Managed In-House with ease.

It is a NEW kind of business acquisition machine that excels in today's 'fourth industrial revolution,' relying more on systems than people, and is manageable in-house by just one person in LESS THAN AN HOUR A DAY.

Since installing the A.I Business machine across our businesses, we've reduced each of our marketing team from 5 to one employee, increased our profit margins from 25% to 45%+, and got back a business that serves us and our time instead of consuming it.

The A.I Business Machine systematically creates an **A.I-Powered prospect journey** that results in more and higher quality leads that are ready to take you on your offer and, even more importantly, can be generated while you sleep.

Let me show you how it works...

So, by now, you should understand how the A.I Business machine is so effective at systemizing your business and generating more qualified leads, appointments & sales that show up and buy, especially in today's economy.

And that's why today, for the first time ever, we are offering to install the entire A.I Business Machine in your business done-with-you.

If you've already heard enough information and want to take advantage of this unique opportunity, I recommend going below and booking a call to speak with our team now.

<https://calendly.com/theaimastery/a-i-business-machine-roadmap-call>

We're looking for a beta group of local businesses and service providers who want to work with us one-on-one to install our A.I Business Machine in their business in the next few weeks.

We're not trying to sell everyone on this; we've already validated this concept for our companies and a dozen clients and want to test it on a wider market.

So you have no risk of simply booking a call and speaking with our team about us installing the A.I Business Machine with you.

For those of you who still need more information, let me explain why I believe the A.I Business Machine to be the absolute most effective and streamlined method for growing & scaling your business in 2024..

As you already know - business is a competition.

And this is your competitive advantage.

Not everyone can win but there can be many winners.

There's enough room for every one of you reading this to become one of those successful businesses.

Having said that, AI adoption is required to be competitive.

More and more businesses are utilizing it..

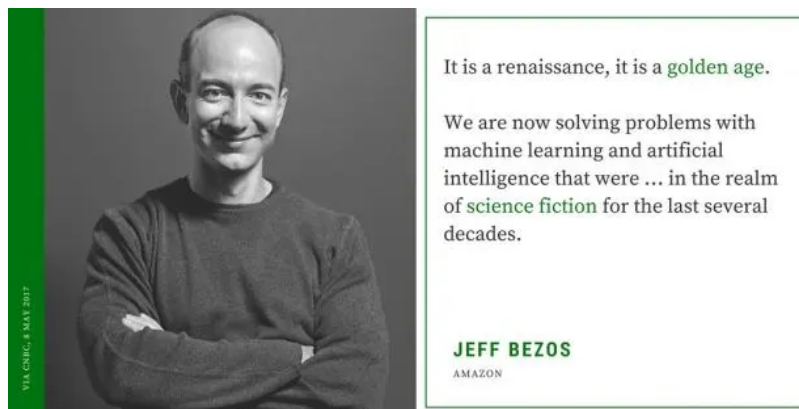

And why shouldn't they?

A.I is so powerful

And those who adapt - win.

Which means that if you'll be among the first to supercharge their business with A.I, (which is what you get with the AI Business Machine), you will create a moat so strong, allowing you to out compete & become the go-to business in your market.

A.I is the new oil, and the A.I Business Machine is your oil rig.

You no longer have to worry about being available 24/7.

When I first started my business, it used to keep me up at night.

I tried creating different systems but they would always be unsustainable and unscalable.

I then committed to building a much more sustainable, scalable, and leveraged system to acquire clients, which started the journey that (4 years later) would become our A.I Business Machine.

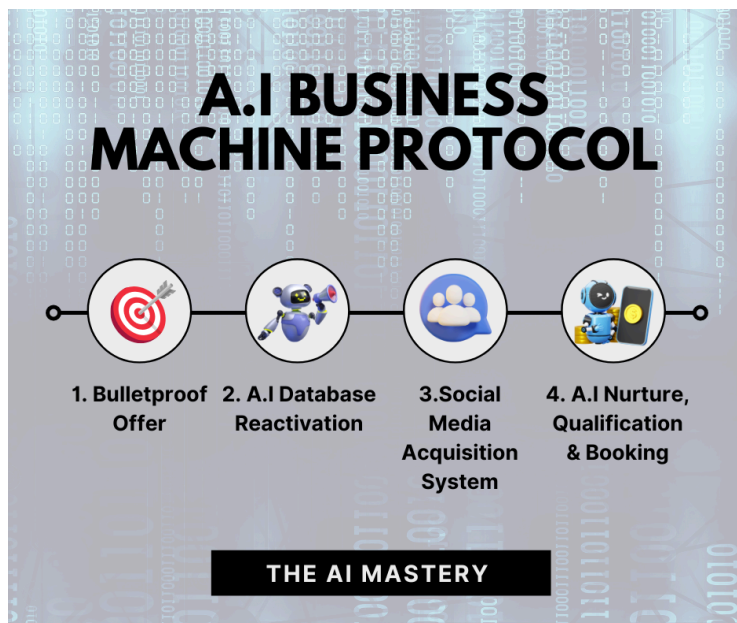

Now, I never have to worry about getting our next client or not being available, or wasting hours doing manual work because the A.I Business Machine makes us so omnipresent.

That's how you become much more profitable.

It's common for local businesses to spend all day in the DMs, post more content, or waste 30-40 hours a week doing manual work like customer service, writing contracts - all in an effort to attract more business.

That's because they don't have the right systems and automatic client acquisition systems in place.

The A.I Business Acquisition Machine utilizes a 4-step protocol that generates a much higher ROI Without operational drag.

Compare that to a traditional business who doesn't have any system in place and is just "winging it"

It allows you to have the competitive edge you need.

As a business owner, you don't have time for experimenting and painstaking effort without knowing if your marketing efforts will work.

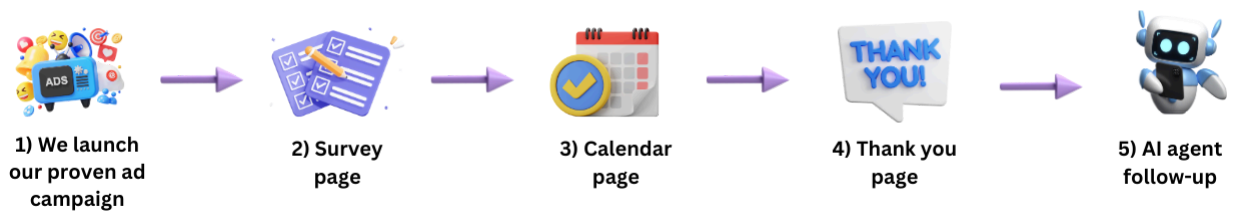

That's where the A.I Business Machine comes in.

It relies on a combination of our A.I Agents, proven offers & social media acquisition system.

You can use and implement this system in your own business to achieve the same outstanding results that we, along with hundreds of other businesses we've worked with have experienced.

Here is how it works:

1. People see your FB Ad with your proven offer.
2. They land on a winning landing page.
3. You capture their email + phone number.
4. An automatic instant SMS is sent to the lead.
5. Leads respond.
6. Your AI agent immediately starts working and qualifies the lead.
7. A booked appointment is scheduled.
8. You receive a notification on a new qualified lead/appointment.

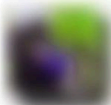

Throughout the entire process, from lead generation to qualification and booking, you didn't have to lift a finger.

This allows you to focus on what truly matters, preventing you from wasting tens of thousands of dollars in ads, saving hundreds of hours each week, and enabling your business to grow and scale 10X faster.

We generated 1000's of qualified leads using this system:

| .75 [2] Website leads | \$12.37 [2] Per Lead | 56,334 People | 103,428 Total | \$927.42 Total Spent |

These leads are then engaged by our 24/7 AI Agent, which essentially handles all the tasks for us—nurturing, qualifying, and booking the leads.

No human touchpoint is necessary.

It's self-sustaining and scalable.

These leads become booked appointments, and booked appointments become clients.

For about an hour of work, I have something that grows on its own and generates clients in perpetuity.

And it's IN-HOUSE.

This is so critical and one of the key differences between installing the AI Business Machine once, and expensive marketing agencies or trying to do everything on your own without knowing if it will work.

The machine has everything built-in.

Thanks to the AI Business Machine, you will be able to serve your prospects at scale while providing them with an amazing customer experience, significantly increasing the likelihood of booking a call and becoming clients.

Our AI project

to me ▾

Keano,

I'm still pinching myself at the results we've achieved in such a short time!!
this system is nothing short of miraculous. The consistent flow of leads and the boost in sales have exceeded my wildest expectations.

thank you for revolutionizing the way I approach business!
Best,
Sara

You'll be ahead of the curve.

Those who won't adapt A.I into their businesses will be DESTROYED by those who do.

Instead of being upset by it, leverage the A.I Business Machine
To generate as much business while it's still a blue ocean.

It is trained to act on behalf of your best salesperson: you.

Let's be honest, we have no desire to spend our entire day qualifying and nurturing leads, regardless of the income.

Nor is texting in our DMs all day or posting content 24/7.

That's where the A.I. Business Machine proves its power.

By transforming your business into an A.I.-powered entity, it lets A.I. handle the challenging tasks.

This not only enables you to operate with a leaner team, requiring fewer employees, but also saves hundreds of hours each week, allowing you to maximize profits.

If you're ready to jump on this one-of-a-kind opportunity, don't hesitate to make your move and [book a call with our team](#) immediately.

We're searching for a beta group of local business providers who want us to install our A.I Business Machine in their business in the coming weeks.

We're not hard-selling anyone; we only want people who see the value in this new age of business and want to be one of the first people to leverage it for their industry.

[Be sure to book your call with our team now.](#)

So, there's absolutely no risk in simply setting up a call to talk about how we can tailor the A.I Business Machine for your business.

For those of you who are interested but still have some questions, let me address a few concerns you may have around leveraging the A.I Business Machine in your business.

1. What makes The A.I Business Machine so special?

If you want to generate more leads, booking & sales in the next 60 days or less, you have 3 options:

- Hire an agency
- Do it yourself
- Install our A.I Business Machine

Let's break down each one..

| Agency | Do It Yourself | The A.I Business Machine |
|--|---|--|
| Pay \$3000-5000\$/m (36-50k A YEAR) | Significant investment of your precious time and effort | No hefty monthly fee (Save \$30k-40k Per Year) |
| Growing your business takes time. Over just one year, you could be out \$54K in agency fees alone. | Need advanced skills & systems in place (Copywriting, AI Prompting, Marketing) | Plug & Play system, ready-to-launch |
| Long contracts | How will you do it? | No contracts |
| Mass production solutions | | Tailored to you |
| Slow to make changes, results vary | No guarantee you can pull it off | If you qualify, we guarantee the system will work |
| Possible damage to your Reputation | | You're in charge |
| Miss the opportunity of developing your marketing capabilities in-house. | | At a fraction of the price compared to hiring an agency, our solution offers greater value, produces superior results, and equips you with the necessary tools to avoid ever paying excessive agency fees in the future. |
| Lose enterprise value due to a lack of in-house marketing capabilities. | | You don't need to rely on outside help, you will have the knowledge to bring marketing in-house. |

I believe that marketing agencies do not fit most businesses.

I may have a slight bias, but for those who align perfectly with our program, it's not just the fastest, most efficient, and incredibly savvy path to results – it's also a ticket to the forefront of innovation.

2. I've already hired a marketing Agency, will this still work?

Yes, our marketing system works even if you're already working with another company.

Our system seamlessly integrates with existing efforts.
(And will allow you to ditch the marketing agency and take everything in-house).

3. Isn't this very messy and complex?

No.

It's not messy.

It would likely be if you didn't leverage the AI Business Machine and instead just randomly Trying to grow your business, but the AI Business System was created with efficiency in mind.

Every single thing is connected to another and has a place.

It's like an orchestra, each piece perfectly playing with the other to create something beautiful.

The machine itself is complex - but You get to enjoy the end result.

We work with you through the entire installation process, and It is easy to manage once you have it set up.

The AI Business Machine requires an upfront investment but pays dividends for years and will save you tens of thousands of dollars each year.

4.Is the AI Business Machine a “done-for-you” set-up?

No, it's a “done-with-you” set up.

We equip you with our software, tools, and templates and collaborate with you to build a reliable and consistent AI - Powered Acquisition system for your business.

5. Will this system work in my city?

Most likely, yes. We've invested millions in ads across various markets in the US. During our call we'll provide insights into the results you can expect in your local market.

6. Can't I just keep doing what I'm doing?

Yes, if whatever you're doing is working, by all means, keep doing it.

That is the beauty of the A.I Business Machine: it works in conjunction with your other client acquisition methods.

Whether that's DM ads, video sales letters, Facebook Groups, cold emails, Instagram shoutouts, lead magnets, etc., the A.I Business Machine will actually increase the effectiveness of these channels.

But, take it from someone who has made and spent millions trying all of the above methods: you also want to start to build your systems through the AI Business Machine.

So your entire process of how you take a customer in...

How you generate a lead..

How you follow up with him..

How you qualify him..

Would be as predictable and streamlined like the biggest companies out there.

Offer. Done

Content. Done

Marketing system. Done.

Closing. Done.

Weekly Communication. Done.

Reporting. Done.

All of it would be like an assembly line.

And when it is set up inside of your business...

You don't need to hire Einstein's to be able to help you get the ball across the goal line.

You have A.I to do it for you.

And, as I said earlier, the AI Business Machine doesn't require you to give up cash now for cash later.

It is meticulously crafted to be the best of both worlds.

You'll be putting out more value than you take from the marketplace, while still taking a lot.

So, with all that being said, we formally invite you to [book a call with our team](#) about how we can install the A.I Business Mastery in your business today.

We're only looking to work with a handful of local business owners who already have a database of clients and are running paid media campaigns (or want to start to) who understand how powerful the AI Business Machine can be for predictably generating qualified leads that show up, buy, and buy again.

I'll spend the rest of my time here explaining how the process works, how quickly you can start seeing results, and what you'll get by working with us.

First of all, I cannot stress this enough: there is not just “one thing” that makes the AI Business Machine Works.

It's not just about running ads, generating leads, creating a lead magnet, etc.

It's a system.

All the pieces work together harmoniously, like an airplane engine; even one missing piece could lead to disaster.

It could easily take 100+ hours if you tried to piece together this entire system on your own, not to mention you've never built it before, so you don't even know what "success" looks like.

This is what we do best.

After testing dozens of different types of offers and systems, spending millions on ads, and working with 700+ clients, we've boiled this process down to an exact science.

Second of all, this is NOT a course.

We are licensing out to you a system that has generated us \$1M+ in sales and helping you install that system in your business.

We'll be inside a private group with you and your team, answering questions, delivering assets, and holding your hand.

Our team of experts does most of the heavy lifting for you: building, structuring, and connecting the AI Business Machine, loading the proven offers, advertising copy, and foundational assets, setting up the advertising campaigns, piecing it all together, and testing it with you before we go live.

This means you'll spend less time watching course modules or sitting through 2-hour group coaching calls and more time getting stuff done.

Which ultimately means that you'll make fewer mistakes and get your A.I Business Machine launched faster, with our average client having their entire AI Business Machine launched in 25 days or less.

Here's how our process works:

- **1. First, we'll create your 'bullet proof offer' making it irresistible to your market.**

While most offers are mediocre and do not convert, We repackage your offer to not only grab attention but also convert "Hot" leads into paying customers.

Using a bulletproof offer, we're able to present your customers with a "bait" they can't resist and achieve predictable lead flow.

(You can begin using our proven offers or build your own using our "Bullet-Proof Offer" formula.)

Which ultimately means that you'll take home more money with less work and start to separate yourself from your competition.

We do this first because it builds the foundation for every other step and allows us to scale to a much larger, much colder market.

- **2. Next, we'll "Reactivate" Your Database using Our A.I Reactivation System, that includes "Ted" - Our A.I Agent:**

While most businesses ignore the fact that they are sitting on a pile of cash...

We harness the power of SMS and AI to jolt hundreds of dormant clients in your database back to life, all while creating an unexpected cash windfall for your business.

- **3. From there, we'll launch our proven Social Media Acquisition System for you.**

While most businesses pay \$4,500+ every single month to an agency to do it for them... or try to do it themselves and hope for the best...

We provide you with access to our library of marketing assets...

That has been tested, proven to work...

And show you how to launch it with only a few clicks through our software, no tech skill required.

Here's the key:

These ads are all based on your "Bullet-Proof Offer."

We're going to take your Bullet-proof offer and broadcast it to the world through our proven, plug & play compelling ads that generate leads for 1/3 the cost.

That's not all.

- **4. Once we solve your client acquisition problem, you'll likely run into lead nurturing problems.**

This is where we'll activate "Ted" Again - our AI Agent that will nurture, qualify & book the leads for you.

When you have a tireless, 24/7 AI Agent who never misses a lead, inching each lead closer to becoming loyal customers becomes easy & predictable.

The best part of the machine is that it is easily the most valuable asset in your business.

You set it up once and you can keep enjoying the benefits for years to come.

If something comes up or you have pressing questions that require immediate answers, we've got your back.

We'll be inside a private group with you and your team, answering questions, delivering assets, and optimizing campaigns.

Our job is to solve those challenges using our proven battle-tested A.I Business Machine.

The best part is that there are no additional costs for this level of support, no equity you have to give up, nothing.

In addition, once we have the AI Business Machine up and running, we'll continue to work

with you one-on-one to refine this system, optimizing it with you weekly to get a higher and higher return on your investment.

And after the installation & optimization phase is done - You will still have our email support when needed.

Plus, if needed - for an additional monthly retainer, we can run things for you and give you a "hands-off" experience, or you can schedule separate coaching calls throughout the year :)

The only catch is due to the done-with-you nature of the work we do and the intimate one-on-one support we provide; we can only work with a certain number of clients a month.

And we only work with local business owners who already have a database of clients and who are generating at least \$5,000/month.

So, if that's you, I invite you to go below [book a call](#) to learn more about how we can install the A.I Business Machine in your business today.

While booking your call, you'll fill out a few questions that will allow us to research your business and come to our call prepared to show you the next steps for implementing our proven system.

After you book your call we'll also send you more valuable resources and case studies, further explaining and proving the true power of the business.

So, if you're tired of your business not generating the freedom and revenue you know it's capable of, [click here and book a call to speak with our team.](#)

We can only work with a limited number of new clients a month, so don't wait.

[Book your call](#) so we can go more in-depth on what the A.I Business Machine would look like in your business today.
