Welcome to NewMitBBS Reader, a content reader application developed by LeafArtistic. This Privacy Policy explains how we handle your information when you use our app. We are committed to protecting your privacy and ensuring transparency.

1. Information We Collect

NewMitBBS Reader itself collects minimal data, limited to user settings stored locally on your device. Additionally, the app uses third-party services that may collect certain information as described below:
- **Locally Stored Settings**:
    - NewMitBBS Reader saves user preferences (e.g., font size, theme, or reading preferences) locally on your device. This data is not transmitted to or stored on any servers controlled by LeafArtistic.
    - These settings are stored in the app's local storage and are only used to customize your experience within the app.
- **Third-Party Advertising (AdMob)**:
    - We use AdMob, a Google advertising service, to display ads in NewMitBBS Reader. AdMob may collect:
        - **Device Information**: Information such as device type, operating system, unique device identifiers (e.g., Advertising ID), IP address, and other technical data to serve relevant ads.
        - **Usage Data**: Anonymized data about your interactions with ads (e.g., ad impressions, clicks).
        - **Location Data**: Approximate location (derived from IP address or device settings) to deliver location-based ads, if enabled by your device settings.
    - AdMob's data collection is governed by Google's Privacy Policy. You can opt out of personalized ads via your device settings (see Section 6).
- **No Other Data Collection**: Apart from local settings, NewMitBBS Reader does not collect user-provided data (e.g., names, emails, bookmarks) or transmit any data to LeafArtistic's servers.

2. How We Use Your Information

The information handled by NewMitBBS Reader is used as follows:
- **Locally Stored Settings**: User preferences are used solely to customize your app experience (e.g., applying your chosen font size or theme).
- **AdMob Data**: Data collected by AdMob is used to serve advertisements within the app and analyze ad performance to improve the advertising experience. LeafArtistic does not directly access or use this data.

3. How We Share Your Information

LeafArtistic does not share any personal information because we only store settings locally and do not collect other data. However:
- **Third-Party Service Providers**: AdMob, operated by Google, collects and processes data as described above. This data may be shared with Google's partners for ad delivery and analytics, as outlined in Google's Privacy Policy.
- **Legal Requirements**: We may disclose data collected by third parties if required by law or to protect our rights, safety, or property.

4. Data Storage and Security

- **Local Storage**: User settings (e.g., font size, theme) are stored locally on your device in the app's storage. This data is not transmitted to any external servers.
- **AdMob Data**: Data collected by AdMob is stored and secured by Google according to their policies. LeafArtistic has no control over AdMob's data storage practices.
- **Security**: Locally stored settings are protected by your device's security features (e.g., app sandboxing). You are responsible for securing your device and managing app permissions. LeafArtistic implements no additional server-side security since no data is stored remotely.

5. Children's Privacy

NewMitBBS Reader is not intended for children under 13. We do not knowingly allow AdMob to collect personal information from children under 13. AdMob complies with the Children's Online Privacy Protection Act (COPPA) by limiting data collection for users identified as under 13. If you are a parent or guardian and believe your child has interacted with ads in a way that violates COPPA, contact us at dclone.notifier@gmail.com or Google directly.
