Commission Info

DNI / Boundaries

DNI / Basic Boundaries

(!) = blacklistable offense

(-) = Thin ice

- = Not an issue unless repeated (after a reminder sent from me)

I don't consent for my art to be used to train any form of AI.

(!) If you support trump or his actions in any capacity

(!) If you are below the age of 13 years old. You shouldn't be here anyway.

(!) If you don't support LGBTQ+ (being 'neutral' doesn't count. Don't use religion as an excuse i am SO sick of this.)

-> Gonna say this!! A second time!! Because this keeps happening!! **Do not interact if you don't support the LGBTQ+ community.** This makes me extremely uncomfortable!!! This ISN'T me blocking you for being religious. A lot of people tend to paint it in that light. I genuinely could not care any less about people's religions. It DOES become a problem when you're against my very existence! Or openly support horrible political figures that despise the existence of Queer and Trans people. It's disgusting.

(!) If you are a Pedophile, Ableist, Racist, Zoophile, etc.

(!) If you are still/have recently stolen or heavily plagiarised art/designs

(-) Do not lowball on my designs. Please.

(-) If you Intend to push a religion onto me. I am personally not religious, but I respect people's beliefs. This makes me

extremely uncomfortable. Do this multiple times and you get
blocked

(-) If you intend to talk about politics to me / on my page.

(-) If you have a history of Design/Art theft.

(-) If you guilt-trip just because you can't afford my
adoptable / commission prices! Done multiple times =
block

- You may use my art as PFPs, Banners, etc. WITH
FULL CREDIT!

(-) You may not repost my art on any platform.

(-) Heavily associated with a blacklisted user.

- Please do not compare my art to any other
artists, even if it's in a positive light. It
makes me very uncomfortable :')

- Randomly putting me on Pinglists

- You can ping me when entering contests/raffles! I don't
mind! Just don't ping me for your own raffles/comps,
unless you are on my friends list or I explicitly asked
for it.

- Don't put me on wishlists of any kind unless
you're a friend!! :')

- > I'm a very sensitive person. Just intact with caution!!
- > I block very very freely; if you can't deal with that then just dni/block and move on.

Inspo//Tracing

Tracing and Inspiration

-

You may **not** trace or heavily reference any of my art. This will result in a block/report/blacklist.

This includes color-picking.

I am not comfortable when my art is put into
'inspirations' folders.

Redistribution

Redistribution of My Art

-

- You may NOT repost my art on any platform without explicit permission. Although you may post them onto sites like Unvale and Toyhouse with credit/linking to either my Da or TH
- Commercial usage does not come with purchasing my designs!
- You may not put my art on any form of merch and sell it without my explicit consent.
- You may print out my art, make keychains, print it out on shirts, ets. As long as the art belongs to you, and you only use it for personal purposes!!

Adding Value to My Art

Adding Value to My Art

- *Only add monetary value to my art according to my commission prices, or the price that the artwork was obtained for.*
- *This means you may not add any monetary value to non-commissioned artworks. (Gifts, art payments, art trades, or personal art I made while the character was in my ownership).*

Design ToS

Design TOS

-

- You may not resell any of my adoptables at a higher price they were sold at, unless there is extra commissioned art included. I do not count personal art / gifts / art trades.

- Do not provide my designs to anyone on my black/redlist

- You may lightly redesign my adoptables/designs!
If you have any concerns feel free to DM <3

- You may make alternate versions of my designs!
(AUs, Species change, etc.) as long as I still have full credit for the original + partial credit for the alternate versions!

- If the design was obtained via Trading/Art Payment/Gift, you may not sell the design for monetary value UNLESS there is commissioned art included.

Off-Ax1s on DA //
Comfort || Heavily associated with Blacklisted user

Please keep in mind:

I overthink easily, and tend to panic a lot. This
leads me to blocking users for my own comfort quite
often. I have every right to do so, especially since
DA is already a horrible platform </3

Once again, do NOT go after any of these users! But
please don't give them access to any of my designs
</33

If you are on any of these lists, do not try to
bypass being blocked.

You may ask someone to pass a message, but
that's where I draw the line.

Misc // Important!

Misc/Important!

**Your wellbeing will always mean much more to me than
any artwork or design.**

Don't ever feel bad about taking time when
completing owed art for me!

On that note, my Art takes a really long time! I
genuinely try to pour my heart into every piece I
make <3 Please understand when it takes a while!!

**You may always ask for a WIP! It really isn't that
hard for me to take a screenshot and send it over <3**
