

Freedom Pest Services

STATE-OF-THE-ART PEST CONTROL COMPANY

Freedom Pest Services is a family owned and operated South Carolina pest control company serving York, Fort Mill, Rock Hill, & surrounding North Carolina areas since 2017! Our technicians have over 20 years of industry experience and are fully licensed and insured to provide exceptional services. Our scope of services includes standard pest control, specialty seasonal pest control, termite removal, bed bug removal, & even full crawl space renovations and moisture control.

Our team is up for every job while standing behind their work, with customer satisfaction being the #1 priority. We are always on the search for innovative ways to provide the best pest control solutions to protect our clients' health and properties. We deal with infestations of rodents, termites, cockroaches, and more. Contact us to learn more about our incredible staff and how they can help you!

Our Services:

[Pest Control Waxhaw, NC](#) - Our integrated pest management approach will keep your family safe from disease-causing pests. We use only the safest solutions in pest control and environment-friendly hygiene techniques to guarantee a healthy and pest-free space for everyone.

[Termite Removal Waxhaw, NC](#) - Our comprehensive termite control services range from eradicating termites and preventing further infestations to your house or building. We offer the latest technology in termite control, so you are in good hands.

[Specialty Pest Removal Waxhaw, NC](#) - We ensure our exterminators are fully trained to handle all types of pests, including seasonal pests like mosquitoes, wasps, and bees. These species can be hard to get rid of with over-the-counter treatments.

[Bed Bugs Removal Waxhaw, NC](#) - Our technicians are highly trained to inspect, find active bed bugs, and treat the infestation's exact location. We use a highly effective method for bed bug treatment in the form of liquid, dust, and aerosol pesticides.

Crawl Space Solutions Waxhaw, NC - Keeping the crawl spaces dry & free of mold and pests is crucial, which is why our technicians offer expert crawl space moisture control & restoration services.
