2.4
Why Might Population Change in the Future?

2.4
Antinatalist policies when a country provides incentives for people to have fewer children (sometimes including punishments)

Key Issue#: **2.4.1**	Name _____Period_____

Learning Outcome: Assess a possible stage 5 of the demographic transition.

Questions/Main Ideas	Notes
Possible Demographic Transition Stage 5	
Pronatalist policy	
Antinatalist policy	
China's Population Policies	
India's Population Policies	
Pause and reflect	Based on Japan's population pyramids, how might the potential support ratio change?

Summary	
Questions for class	1.
	2.
	3.

Key Issue#: **2.4.2**	Name _____Period_____

Learning Outcome: Describe two reasons for declining birth rates

Questions/Main Ideas	Notes
Lowering CBR through Education	
Lowering CBR through Health Care	
Lowering CBR through Contraception	
Family Planning	
Pause and reflect	Why might birth rates have declined since 1990 less rapidly in Europe and North America than in other regions?

Summary	
Questions for class	1.
	2.
	3.

Key Issue#: **2.4.3**	Name _____Period_____

Learning Outcome: List reasons for possible stage 5 of the epidemiologic transition.

Questions/Main Ideas	Notes
Reason for possible stage 5: Evolution	
Reason for Possible stage 5: Poverty	

Reason for possible stage 5: Increased Connections	
Pause and Reflect	Which region within the United States has the lowest number of HIV-positive diagnoses" What geographic factor might account for this low level?
Summary	
Questions for class	1.
	2.
	3.

Key Issue#: **2.4.4**	Name _____Period_____

Learning Outcome: Explain arguments for and against Malthus's Theory.

Questions/Main Ideas	Notes
Malthus' Theory	Explain in your own word Malthus' theory
Neo Malthusians	
Neo-Malthusians & Critics	
Pause and Reflect	Calculate the units of population and food that Malthus predicted would exist in 200 years.

Summary	
Questions for class	1.
	2.
