

### Wax Recommendation:

|                     |                           |
|---------------------|---------------------------|
| Event               | Langlauf                  |
| Date, Time          | 2.6, 10am                 |
| Technique, Distance | Classic, 10km             |
| Location            | Spokane XC Park, Mead, WA |

|                            |                                                         |
|----------------------------|---------------------------------------------------------|
| Overnight Temperature (F°) | 28f                                                     |
| Day Temperature (F°)       | 30f                                                     |
| Precipitation, Snow Type   | low precipitation chance overnight,<br>transformed snow |
| Wind                       | low                                                     |

### Glide Wax Recommendation

|               |                |                 |                            |
|---------------|----------------|-----------------|----------------------------|
| <b>Good</b>   | SG Violet      | RG Violet       |                            |
| <b>Better</b> | RG Violet      | RG Race Violet  | RG Ultra Finish Gel Violet |
| <b>Best</b>   | RG Race Violet | RG Ultra Violet | RG Ultra Finish Gel Violet |

### Kick Wax Recommendation

|               |                                                       |                                   |  |
|---------------|-------------------------------------------------------|-----------------------------------|--|
| <b>Base</b>   | Basewax Extra                                         | Ironed                            |  |
| <b>Kick 1</b> | Special Klister with drops of Universal wide added in | Cover with Purple Terva for speed |  |
|               |                                                       |                                   |  |
