SHORT TERM VIRTUAL If Nicolet shifts to a virtual learning day because of weather or other short-term reason, we will continue our learning on Canvas. All the information that you will need for this class on a virtual learning day will be found in the announcement that will appear in our Canvas course. You must submit the work assigned for this day by 11:59 PM to verify your attendance, but we encourage you to begin your work early enough so that you can use the designated office hour time during the school day for any questions that you might have.

ARTIFICIAL INTELLIGENCE Learning is an active process that engages students in the development of new skills and knowledge, therefore students may use AI **only when they have been given permission by their teachers and use AI to support active learning**. This permission is given with the expectation that students will use Artificial Intelligence **effectively and responsibly** and that it will be used to **augment** learning and not replace it. Copying and pasting of Artificial Intelligence output and presenting it as original work is considered plagiarism and constitutes a violation of the Nicolet District Academic Integrity policy. Teachers who give permission for the use of AI may require citation or other documentation and may provide additional expectations of what approved use of AI looks like in their course.

If you have questions or concerns, feel free to contact by email Laura.Anderle@nicolet.us or Colleen.lentz@nicolet.us
