

Website Evaluation HyperDoc

Teacher Guide

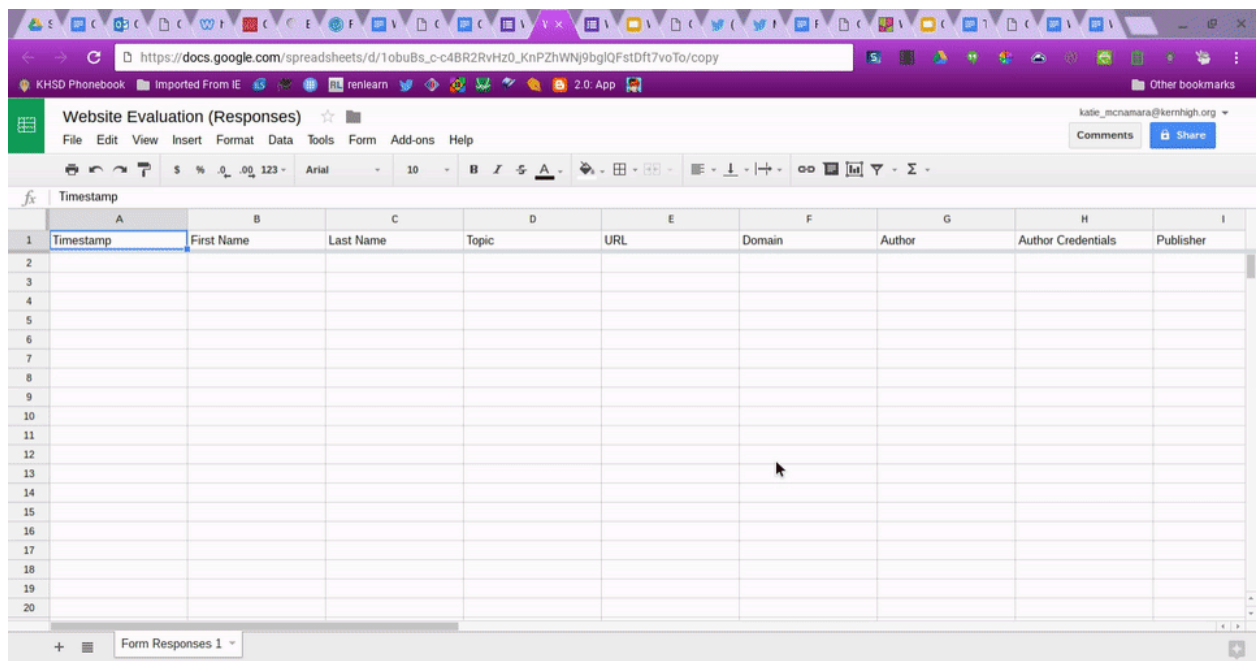

Wow! You want to use this. Or tweak this. I'm honored.

You will need to make a copy of this HyperDoc; it will automatically save to your Drive.

Before you assign to your students, there are a few links you will need to make copies of and insert. This will keep your students' responses and mine separate. These parts are highlighted in yellow in the right column of the hyperdoc.

❖ APPLY [Website Evaluation Form](#)

➤ A sheet will open. Click form-go to live form-copy link.

The screenshot shows a Google Sheet titled "Website Evaluation (Responses)" with the following columns: Timestamp, First Name, Last Name, Topic, URL, Domain, Author, Author Credentials, and Publisher. The sheet is currently empty, with rows numbered 1 through 20. The "Timestamp" column is highlighted in yellow. The sheet is viewed in a web browser, and the URL in the address bar is https://docs.google.com/spreadsheets/d/1obuBs_c4BR2RvHz0_KnPZhWNj9bglQFstDft7voTo/copy. The browser's taskbar at the top shows various open applications, including a phonebook, a file explorer, and a web browser. The Google Sheet interface includes a menu bar (File, Edit, View, Insert, Format, Data, Tools, Form, Add-ons, Help) and a toolbar with various editing and formatting tools. The bottom of the sheet shows a tab labeled "Form Responses 1".
