Section 2 - General Information

Nicholas is a member of the SCP Foundation, and is stationed at Site-65, Canada. Nicholas has been stationed here for over a year, rising through the ranks from his most notable early position of Consultant to the position of Site Manager where he spent some time until he disappeared from site and was replaced by Site Manager Leon Baranov, who surprisingly did not last long and was sent to a different site that needed urgent assistance from Site Administration.

It seems that during Nicholas' disappearance from Site-65, he denounced his position as Site Manager and went to a different site, however this is mainly speculation and is not documented anywhere as to what happened to him. It is believed by some that he was captured by members of the **Serpent's Hand** and kept with them for an extended amount of time. Others believe he resigned from his position as he was inducted into **MTF Alpha-1**, however this can neither be confirmed.

What is known is that he has now returned to Site-65, and has spent some time getting used to the site once more, around a month or so.

Nicholas has been described as a man of Italian descent, with lightly tanned skin and fair brown hair. He looks no taller than 6ft and has an average build. Brown eyes and a stubble beard. His appearance is not entirely unkept, however he has some features that could be described that way. He does, however, make sure to make himself presentable in any outfit he would find himself in on the day, keeping up good appearance and presentation.

Nicholas seems to spend most of his time around the Medbay/D-Block area, chatting with other members of staff and assisting them wherever possible. He gets along well with most, and can be easily approachable if there is something to ask of him.

Not much is known about Nicholas, however many agree that his previous work was tremendous, and are glad to see him return to Site-65. Upon his return to Site-65, he took a keen interest in the Ethics Committee, more substantially in becoming an Assistant of the Ethics Committee. His work that he did as once he was back was to work towards this new goal.

Nicholas has been seen quite prominently around the site and has been seen to be quite pleasant to talk to. He has made many new acquaintances and has caught up with some old acquaintances of his who all wish him luck with his future plans within Site-65.
