Mac reached out to me and GVTV the spring of my sophomore year to ask about doing a collaborative broadcast between Grandview and Arapahoe Girls Soccer. Despite a loss for my Grandview Wolves, it was a win for student broadcasters like Mac Shaver. Mac continues to carry that collaborative idea and philosophy with him every day at Arapahoe Sports Network, which has led to a continued relationship between the two programs to this day. His leadership, dedication, and all around energy has helped build the program at Arapahoe into heights that I can't even begin to imagine. Arapahoe continues to be one the most professional level broadcast programs in the state - and deservedly so, thanks to Mac Shaver. His innovative and creative mind helps him see things in unique ways - and he isn't just a dreamer. Being able to translate those visions into reality is seldom found in high school students, but still, Mac possesses the ability to do it all. For those reasons, as GrandviewTV Editor-in-Chief, Colorado High School Journalist of the Year, and friend, I am proud to recommend Mac Shaver for 2024-25 Colorado High School Broadcast Journalist of the Year.

My best,
Jake Chau
