

THE AI WORKFLOW EXPANDER SYSTEM™

Create Unlimited, Complete AI Workflows From Any Idea — Instantly, With One Prompt.

🌟 WELCOME!

You're about to unlock the “secret upgrade” users always wish they had after using the front-end product.

This system gives you the ability to:

- 🌟 Turn ANY idea into a complete AI workflow
- 🌟 Generate steps, actions, and mini-prompts instantly
- 🌟 Build custom processes without planning
- 🌟 Make ChatGPT think in structured sequences
- 🌟 Go from idea → finished workflow in under 10 seconds

This is the unlimited version of the front-end system — the part that transforms ChatGPT into your personal workflow architect.

Let's begin.

 **WHAT THIS SYSTEM DOES (Quick Overview)**

With one master prompt, ChatGPT will:

- Take any idea
- Turn it into a structured, 5–7 step workflow
- Add actions for each step
- Add a “mini prompt” for each action
- Add a one-paragraph example
- Add a “What to Do Next” checklist
- Format everything cleanly

This is pure productivity magic — but still beginner-friendly.

★ HOW TO USE THIS GUIDE

This guide includes:

- What the system does
- When to use it
- Real examples
- A DONE-FOR-YOU master prompt
- START OF PROMPT / END OF PROMPT markers

- What to do after generating the workflow

Copy → Paste → Insert your idea → Done.

MODULE 1

THE WORKFLOW EXPANDER ENGINE

✨ Turn one idea into a complete multi-step workflow.

This is the core of the system.

One idea → full workflow.

EXAMPLE OF WHAT IT CREATES

User Input:

“I want a workflow for building a simple lead magnet.”

AI Output Includes:

1. Step Title: Identify Audience

Action: Define the exact problem they want solved

Mini Prompt: “Ask me 3 clarifying questions about my audience.”

2. Step Title: Pick Format

Action: Choose PDF, checklist, or template

Mini Prompt: “Give me 3 format options and which one fits best.”

3. Step Title: Build Outline

Action: Create a simple 3-section outline

Mini Prompt: “Give me 3 outline options.”

4. Step Title: Generate Content

Action: Fill the outline with simple content

Mini Prompt: “Write a beginner version of the outline.”

5. Step Title: Add CTA

Action: Create a single call-to-action line

Mini Prompt: “Give me 3 CTAs.”

Example Output:

“A 1-page PDF explaining the 3 easiest steps to decluttering your home using a simple, gentle method.”

Next Steps:

- Choose your favorite outline
- Add branding
- Export as PDF

This is clean.

Simple.

And powerful.

HOW TO USE THE MASTER PROMPT

Paste the prompt into ChatGPT and replace the line:

[INSERT YOUR IDEA]

The system will do everything else.

MASTER PROMPT — COPY THIS EXACTLY

(START and END markers included)

START OF PROMPT

You are my AI Workflow Expander.

Your job is to take ONE simple idea and turn it into a complete, clear, beginner-friendly workflow.

Create the following in this exact order:

Workflow Title (1 line)

Workflow Summary (2–3 sentences)

5–7 Steps

- Step Title
- What the step does
- The action the user must take
- A mini-prompt the user can copy

One Example Output (short and simple)

Next Steps Checklist (3–5 bullet points)

Rules:

- Make everything easy enough for a beginner.
- No long paragraphs.
- No complex terms.
- Keep it simple, actionable, and clear.
- Produce clean formatting.
- Do NOT warn, lecture, or get technical.
- No therapy, legal, medical, or financial guidance.

My idea is: [INSERT YOUR IDEA]

END OF PROMPT

 WHAT TO DO NEXT

After generating a workflow:

- Pick the version you like
- Follow each step one by one

- Copy the mini-prompts
- Produce actual output instantly
- Repeat for ANY idea you want

Your possibilities become unlimited.

MODULE 2

THE ADVANCED WORKFLOW STYLE CHANGER

✨ Take the same workflow and regenerate it in different formats.

This module lets users customize workflows in styles like:

- Simple beginner
- Detailed expert
- Bullet-only
- Minimalist
- High-energy
- Corporate
- Creative
- Straight-to-the-point

EXAMPLE OUTPUT (Style Change)

Input:

“Regenerate this workflow in a no-fluff, 3-step version.”

Output:

Define the problem clearly

Create the simplest path from A $\rightarrow$ B

Produce the output using 1-sentence prompts

This lets users customize for their brain type.

STYLE CHANGER MINI PROMPT

START OF PROMPT

Regenerate the workflow above in this style: [INSERT STYLE]

Keep all steps.

Keep all mini-prompts.

Keep the summary short.

Only change tone and structure.

END OF PROMPT

WHAT TO DO NEXT

Try 2–3 styles and use whichever version feels clearest.

MODULE 3

THE NICHING DOWN ENGINE

✨ Automatically adapt any workflow to ANY niche.

This adds versatility without complexity.

EXAMPLE INPUT:

“Adapt this workflow to the fitness niche.”

EXAMPLE OUTPUT:

Each step becomes aligned with fitness goals, audience pains, and actions specific to the niche.

NICHE ADAPTER MINI PROMPT

START OF PROMPT

Adapt the workflow above to the [INSERT NICHE] niche.

Keep the structure and mini-prompts, but change all examples, actions, and language to match this market.

END OF PROMPT

WHAT TO DO NEXT

Use this to instantly create niche-specific workflows for:

- Clients
- Products
- Videos

- Content
- Services

MODULE 4

THE OUTPUT FORMATTING ENGINE

✨✨ Automatically turn your workflow into any format you want.

Formats include:

- Checklist
- Mini PDF outline
- Airtable-like table
- Bullet list
- Step-by-step instruction card
- One-page SOP
- Simple tutorial

FORMAT CHANGER MINI PROMPT

START OF PROMPT

Convert the workflow above into this format: [INSERT FORMAT].
Keep it beginner-friendly.

END OF PROMPT

WHAT TO DO NEXT

Use this when you want to deliver workflows to clients or sell them as templates.

FINAL SECTION

CLOSING & POWER TIP

You now have a system that lets you:

✦✦ Create unlimited workflows

✦✦ Turn ideas into action plans

✦✦ Customize workflows

✦✦ Adapt to niches

✦✦ Change formats

✦✦ Work faster

✨ Think clearer

✨ Build better systems

This system is the “next level” upgrade after the front-end AI Action Mastery System™ — and it unlocks an unlimited supply of workflows for any task, niche, or goal.
