Holdkaptajn Ansvarsområder

Dansk Frisbee Sport Union sender XXX som holdkaptajn for den danske delegation til EM i disc golf i august 2020. Holdkaptajnens primære rolle er at fungere som bindeled mellem de danske deltagere og organisationen. Her tænkes både i forhold til DFSU og EDGF. Holdkaptajnen skal groft sagt sørge for, at spillerne under turneringen ikke behøver at bekymre sig om andet end at spille og tænke disc golf samt spise, restituere, sove og møde rettidigt til næste runde.

Nedenstående er uddrag for EDGF retningslinjer for EM 2020

Each team must bring one team captain whose responsibility is to attend all captains meetings, represent the country at official event ceremonies, and provide communication between the LOC and the players of the team;
in case of a joint EDGC and EMDGC event one team captain can serve for a country for both events

Team captains do not pay the event fees, except limited administration fee, the green fees for requested days of practice play, eventual area access fees, and social event fees for which they have free access

Team Captains are eligible to play doubles.

Program

- the contract may include insurance waivers, media and marketing rules, release of public liability of the LOC, etc.
- in addition to the PDGA dress code players in competition (singles/doubles) need to adhere with the uniform policies at the event with the right to add their sponsor info in a limited extent

(4) Nomination and Registration Schedule

- **November 18, 2019** - deadline for nomination of players for the individual spots *by the team captains*
- **November 19, 2019** - EDGF publishes the list of all nominated players; players who were not nominated and feel that they were forgotten have 7 days to contact their national disc golf governing bodies (*through the team captain*) to receive a last minute nomination

- **February 18, 2020** - the end of the event registration, all players with individual spots need to be registered *by the team captains* by this deadline, players with

national spots may be registered or the national spots may remain unnamed even after this deadline if your country prefer so, and if you claim them and pay them by the deadline (and in case of MP40/FP40 national spots you also need to indicate the divisions of your choice).

- **March 3, 2020** - all spots (individual and national) must be paid (including unnamed national spots, and eventual substitute players)
- **August 1, 2020** - all unnamed spots must be assigned to players

Nomination Procedure for Individual Spots

Each team captain will have an access to edit the particular sheet (name of the sheet is the name of the country) of the nomination document:

<https://docs.google.com/spreadsheets/d/1xgqDJbroGlqs3WAX7m7heFv7Re0IUYOEmY0AQHD81RA/edit#gid=1175438453>

All team captains, please check whether the settings are right and you are able to edit your own country sheet. If you encounter any problems with it, please, inform us right away.

In the sheet the name of the captain(s) is listed, in case of the joint captain for the whole event, the data are the same for both EDGC and EMDGC.

Then, just for your reference the number of national spots for each country is listed. This is only provided for a reference, i.e., it does not limit in any way the number of your nominated players for individual spots.

Finally, the captains need to fill in the table Nomination for Individual Spots for their own country.

- In each row enter the First Name, Last Name, PDGA number, Country, and Division of each nominated player (including the current European Champion). By nominating a player you confirm that you have checked that the player satisfies all the requirements listed above, particularly nationality eligibility, approval of the player by the national disc golf governing body, activity of the player, etc.
- Players may be nominated in multiple divisions if they satisfy the age requirements. In that case you need to nominate the player separately in different rows, one for each division and also you need to indicate the order of preference for divisions with 1 be the highest preference, 2 being a lower preference, etc.
- For an example of the completed nomination list, see the sheet Example (Molvania), see also the proper format of the data.
- You can freely edit your nomination list until November 18, 2019, 24:00 Central European Time (UTC + 1). Then the list will be frozen and all additional last minute nominations that are a result of a forgotten players (or similar situations) will need to be submitted by email. No additional nominations will be allowed after November 25, 2019, 24:00 (UTC + 1).

If at any time later (before the start of the event) a player will receive an individual spot from the individual spot waiting list due to a cancellation of a player with the individual spot, the spot will be awarded to the player regardless whether the player received a national spot or not. That means that in case such a player is already registered for the event with a national

spot, the country will be able to award the national spot to an additional player. In that case, the event fees will need to be paid within two weeks period for the additional player.
