Aeries & SECURLY Parent Portals for CUSD

Securly allows you to monitor your student's chromebook activity. It also flags potential concerns like signs of bullying, depression, self-harm, and even suicide.

To start you must have an Aeries Parent Portal account - if you already have an Aeries account, go to step 2.

1. **Creating an Aeries account**
   a. To create your Aeries Parent Portal account, you will need a verification passcode, student's Perm ID number and phone number of record (the school will provide the verification passcode).

   b. Go http://hac.chicousd.org and click Create New Account.
   Click here for step-by-step Aeries instructions

2. **securly://**

   a. You will then begin getting weekly emails from SECURLY on your student's web activity or you can log into SECURLY by clicking on the link in your weekly email or by going directly to the website. You can also download the app from this page.
   SECURLY's Parent Portal - https://www.securly.com/parent-login

   b. What can you do in SECURLY parent portal:
      - **Activity:** View and search your student's web activity and/or download the report
      - **Flagged:** View Flagged sites and keywords that have been searched
      - **Settings:** Block or allow sites for your student when they are NOT at school
        - Parents control off campus access and CUSD controls on campus access
      - **Pause the Internet** - ONLY available from on the Securly Home App (not the website)
