1. Introduction (11pt)

(10pt) Here introduce the paper. This document is a template of Microsoft word document. The paragraphs continue from here and are only separated by headings, subheadings, images, formulas, and equations. The section headings are arranged by numbers, bold and pt 11.

1.1 Structure (11 pt)

(10pt) File should be prepared in MS word format only and should be ready for printing. Figures, tables and equations must be embedded in text. Make sure that you use standard font (Times New Roman) in your documents, fonts such as Chinese or Korean may cause problems during writing manuscript. In-order to avoid unnecessary spelling errors authors are strongly recommend to use spellchecker tools of MS word. Full-length article should follow this order while typing: **Title, Authors name and affiliation, Corresponding authors e-mail, Abstract, Keywords, Introduction, Materials and Methods, Results and Discussion, Conclusions, Acknowledgements, References, and Appendix** (optional).

1.2 Table

All tables should be numbered with Arabic numerals. Headings should be placed above tables (in bold letters), left justified. Only horizontal lines should be used within a table, to distinguish the column headings from the body of the table, and immediately above and below the table. Tables must be embedded into the text and not supplied separately.

Table 1. An example of a table. **(10pt)**

Example	First (t)	Second (T)
Add one	1-2	2
And two	3-4	4
And so on	5-7	6

1.3 Section headings

Section headings should be left justified, with the first letter capitalized and numbered consecutively, starting with the Introduction. Sub-section headings should be in capital and lower-case letters, numbered 1.1, 1.2, etc., and left justified, with second and subsequent lines indented.

- Geographic Coordinates: 19° 21' 39.3" N 98° 34' 11.6" E 618 m ASL

Standard abbreviations such as HPLC, TLC, GC, UV, CD, IR, MS, NMR can be used throughout the manuscript. Nonstandard abbreviations must be defined in the text following their first use. Define all symbols used in equations and formulas. If symbols are used extensively, provide a list of all symbols together with the list of abbreviations.

1.5 Footnotes
