

THE STEWARD SCHOOL

AP Statistics

Summer Work 2026 (updated May 1, 2026)

- **due date:** Monday, August 31 (first day of class)
- **estimated time:** 5 hours (for planning purposes only; work until you finish)

Dear AP Statistics students,

Welcome to AP Stats summer work! This summer work is different from other summer work you may have done.

You need to purchase "*The Practice of Statistics for the AP Course*" 7th edition (Bedford, Freeman and Worth, 2024) Authors: Daren Starnes, Josh Tabor (ISBN-13: 978-1-319-40934-0).

- Please read ***Unit 1 Part 1-Exploring One Variable Data (Data Analysis)*** and
 - As you read the textbook, take brief handwritten notes about vocabulary words and types of data displays. Try a few of the odd-numbered problems in the Practice Exercises at the end of each section (pg. 8, 17, 38, 72). Check answers in the back of the textbook in a different color ink.
- Complete "[Getting Ready for AP Statistics](#)" in Khan Academy by the first day of class.
 - "Completion" of the Khan Academy assignment is a score of proficient or mastered for each checkbox.

These assignments should be completed and turned in on the first day of class. On the second day of class, you will go over any questions that you may have. After that you will have a short quiz on topics from the summer work.

Summer math grade components:

- 10% uploaded work
- 40% completion
- 50% quiz grade

We are really looking forward to the upcoming school year and hope you are, too! **Please email any of us if you have questions about the skills or the process.**
