

Dear Parent or Guardian,

The Marysville School District, in partnership with Terrace Metrics, Inc., is proud to provide an innovative system to students and families. This system is designed to examine the resiliency of participating students from third grade through 12th.

What are the Benefits of the System?

Research shows that schools play an important role in raising healthy children through the measurement and teaching resilience. Resiliency means that a person has personal strengths that allow them to overcome or work through adversity. Resiliency is a key factor in positive school and learning experiences. Further, high resiliency contributes to better academic performance.

The Terrace Metrics system allows us to examine the needs of the whole student. We would be able to help students who are low in resiliency to improve areas of need.

What Should I Know as a Parent or Guardian?

- First, only students who have parent permission are allowed to participate in the resiliency assessment. If you do not wish to have your child participate, you must sign this form and return it to your school.
- Second, the data is de-identified, that is, all scoring and coding of data is done using student ID numbers. Your child will not enter any personal information when completing the assessment.
- Third, only designated members of our school's response team (e.g., counselors, administrators) will have access to your child's individual report.
- Fourth, the assessment is not a diagnostic tool, and no information will be placed into your child's education file. The purpose of this system is to inform us of how each student is functioning within specific resilience/adversity indicators.
- Fifth, the school will not allow the collection, disclosure, or use of personal information collected from students for the purpose of marketing or for selling that information (or otherwise providing that information to others for that purpose).
- Sixth, you have the right to review the items and indicators before giving consent. You can view the items by coming to your child's school. A school response team member will be available to answer any questions you may have.

Between October 27 - November 26, 2025, your child will have the opportunity to participate in the administration of the survey. If you do not wish to have your student participate in the Marysville School District Resiliency service, you must sign and return this form indicating so. The form must be returned to the school by October 24, 2025.
