

Addendum # 1 – Clarifications of Contractor Concerns

Clarification 1: The requirement of \$5 million in umbrella liability coverage has been removed from this project.

Clarification 2: A minimum one (1) year Completed Operations coverage is required. This is not a warranty period; Cherokee County Schools requires a contractor's warranty covering workmanship and materials (except as materials may be covered by an extended warranty) for a period of one (1) year.

Clarification 3: Minority-Owned/Historically Underutilized Businesses: This is state law. For a project in excess of \$300,000, documentation of efforts to recruit HUBs are required, and we'll need our Affidavit A from our front-end documents. Any bidder using its own forces can execute Affidavit B.

Clarification 4: The 92% compaction spec is and remains an engineer question
