STKB121 Canvas: Student Submission for Annotation Assignments - CHROMEBOOK

This walkthrough will show you how to complete and submit assignments asking for annotations **from a Chromebook**.

Open the assignment in Canvas.

You will see that the annotation tools are loaded into the Canvas screen. There is no need to open in a separate screen like before or like in Kami.

Jeff Test New Student Annotations

Due Dec 17 by 11:59pm Points 100 Submitting a student annotation

Please complete the assignment and submit

Student Annotation

A screenshot of the Canvas student annotation interface. It shows a dark toolbar with various icons for selection, zooming, and drawing. Below the toolbar is a large white area for the document. At the bottom of the document area, there are two text input fields: 'Name: _____' and 'Type your favorite class: _____'.

Annotation Tools

1. Selection - allows you to select, copy, paste, etc.
2. Point Annotation - when selected allows student to leave a comment to the side of the document
3. Highlighter
4. Text Box - allows student to enter text where they choose
5. Strikethrough - allows student to strike out text on the page
6. Free Draw - marker to draw, write, color, etc.
7. Area annotation - draw boxes on page

Using the tools listed above, the student can add their responses to the assignment on the screen.

When complete, the student can select the Submit Assignment button under the annotation window.

Successful submissions should produce confetti on the screen.

For the student iPad walkthrough, see [STKB122](#).
